

# Lock-Chain Combination Steel-O-Chain™ Iven 8210

## Technology

- 8 mm square chain with functional, durable and highly flexible synthetic fibre sleeve which prevents damage to paintwork
- The sleeve offers very high protection against abrasion and does not absorb liquids, e.g. water or oil
- The chain, the housing and the structural parts of the locking mechanism are manufactured from specially hardened steel
- Ergonomic lock body with impact-resistant SCT (Soft Case Technology) sleeve
- High-quality locking cylinder with user-friendly reversible key for maximum protection against tampering, e.g. lock-picking
- Two keys included in the scope of delivery

## Operation and use

- Good protection against low risk of theft
- Ideal for protecting light motorbikes and scooters

## Tips

- Lock-chain combinations are a very good way of attaching motorbikes to fixed objects
- Very easy to use, because only one end of the chain has to be locked
- To limit the possibility of brutal attempts to smash the chain, it is best not to place it on or near the ground
