

Lock-Chain Combination GRANIT™ 58 12KS Black Loop

Page 1 of 1

Technology

- 15/32" chain with textile sleeve to prevent damage to the paintwork
- 5/8" round shackle (45/64" with coating)
- The chain, the shackle, the lock body and the structural parts of the locking mechanism are manufactured using specially hardened steel
- ABUS XPlus cylinder for incredible protection against manipulation, e.g. picking
- Two keys are included in the scope of delivery – one of which is an LED torch key
- Manual cover for the keyhole to protect against dirt and corrosion
- ABUS Code Card for additional or replacement keys

Operation and use

- Very good protection where the risk of theft is high
- Recommended for securing valuable motorbikes
- The loop chain enables you to use the full length of the chain and therefore provides a flexible connection

Transport

- Easily transported under the seat as the chain folds compactly

Tips

- You can order several one-key-fits-all locks. This allows you to use a single key or locking mechanism in conjunction with multiple locks
- 2-in-1 – the lock can also be used when separated from the chain
- Ideal for use on quad bikes and ATVs (can be fastened to the axis)
