

# Brake disc lock GRANIT™ Sledg 77

## Technology

- 33/64" locking bolt made from hardened special steel
- Extremely high protection against unauthorised use
- Locks the brake disc
- Small, easy to handle, compact and secure
- Easy handling thanks to the sliding mechanism
- Open the lock, let the slide slip out with the locking bolt, guide the bolt through the brake disc from the inside, push the lock body towards the bolt and lock with the key
- ABUS XPlus locking cylinder offers top levels of protection against lock picking
- Non-slip, protective rubber coating
- Includes a Memory Cable – to remind you about the lock before setting off

## Operation and use

- Great protection where there is a high risk of theft
- Recommended for protecting high-value motorbikes

## Transport

- Provided with a bag, for comfortable and secure transport
- Matching SH 77 bracket optionally available as an accessory for mounting on round frame tubes with diameters of 15/32" - 1 7/64", or on rectangular frame tubes with diameters of 15/32" - 45/64" (two frame tubes required in each case)

## Tips

- You can order several one-key-fits-all locks, allowing you to use a single key in conjunction with multiple locks/locking mechanisms
