

Steel-O-Flex IVERA Steel-O-Flex™ 7200

Technology

- 22 mm thick, overlapping steel shells protect the internal steel cable
- New, functional, durable and highly flexible synthetic sleeve prevents damage to paintwork
- The steel shells, the housing and the structural parts of the locking mechanism are manufactured using specially hardened steel

Operation and use

- Good protection at medium theft risk
- Recommended for securing good bicycles
- The longer the cable, the easier the bicycle can be locked to a fixed object

Transport

- Ivera RBU – Bracket with flexible steel band suitable for various frame shapes covering diameters of 20 - 42 mm and fitted with a mount for the seat post clamp
- The bracket is also available as an extra accessory

Tips

- Due to the steel shells, the Steel-O-Flex™ locks reach a significantly higher security than common cable locks, yet maintaining high flexibility (Double Protection)
-
