

Brake disc lock GRANIT™ Victory XPlus™ 68

Page 1 of 1

Technology

- 14 mm steel bolt
- Excellent grip thanks to the rubberised ring
- The bolt, lock body and supporting elements of the locking mechanism are made of specially hardened steel
- The round shape hinders the use of opening tools
- ABUS XPlus cylinder for exceptionally high levels of protection against manipulation attempts such as picking
- Two keys are included in the scope of delivery, one of which is an LED torch key
- ABUS Code Card for additional and replacement keys
- A Memory Cable that acts as a reminder against accidentally driving away with the motorbike still locked is included in the scope of delivery. With the "Roll Up" version, it is integrated into the bolt

Operation and use

- Great protection where there is a high risk of theft
- Recommended for protecting high-value motorbikes

Transport

- SH 68/69 bracket for quick mounting on tubes with a square diameter of 12 - 18 mm, or round tubes (at least two) with a diameter of 12 - 28 mm
- A carry case is included in the scope of delivery

Tips

- You can order several one-key-fits-all locks. That means that a single key or mechanism can be used for several locks
- Brake disc locks are a very compact category of motorbike locks and are therefore easy to transport
- To increase security during longer parking times, you should lock your motorbike to a fixed object with an additional lock
- This lock is also available in a chain combination
- For very narrow spaces between bolt and fork, a version with a half bolt head is available

Handy - secure - solid
