30 YEARS OF AMERICAN

MADE EXCELLENCE

Accutronix

MOTORCYCLE PRODUCTS

PROUDLY MADE IN THE U.S.A.

FORWARD CONTROLS

Accutronix Forward Controls are made of aerospace grade 6061-T6 Billet Aluminum with Stainless Steel inserts that won't shake, rattle, rish and require little to no maintenance.

The beauty in Accutronix Forward Controls is the ability to match any shift and brake arm style with any foot and toe peg style for your bike. Select an Arm and Peg style and we'll do the rest.

BAG LIGHTS

LED's AVAILABLE IN RED & AMBER

Accutronix has added LED turn signals to our line of products. These LED turn signals fit nicely between the saddlebag and fender on a custom FLH or on any flat surface and are a great solution for adding rear lights to custom baggers. The LED unit is a 3-wire light and can be used as a running, turn and/or brake light. You may need a load equalizer or turn signal controller depending on your application.

LATCH COVER INSERTS

Accutronix has added Saddlebag Latch Cover Inserts for 2014-Up FLH's to our line. These inserts replace the factory reflectory and really clean up the stocklatch cover.

RISERS

Accutronix risers fit 1" handle bars on standard Harley's and many metric bikes. The "Conventional" risers are drilled and tapped for 1/2-13 mounting bolts while the Springer risers fit OEM FX riser studs. The uniquely designed top caps conceal the handle bar clamp bolts. These risers are machined from 6061 T-6 Billet Aluminum and are available in Polished Billet Aluminum, Chrome Plated, or Black Anodized to match our grips and pegs. (Sold in pairs)

SELECT STYLES AVAILABLE IN
NIGHT SERIES
