

CORROSION BLOCK GREASE out performs lithium and most synthetic greases and meets or exceeds requirements for NLGI Service Classifications GC-LB (automotive wheel bearing and chassis lubricants), conforming to ASTM D4950 performance requirements.

## PERFORMANCE FEATURES

- Waterproof
- Multi grease compatible
- Excellent extreme pressure (EP) properties
- Excellent thermal/oxidative stability
- Resists bleeding or melting at high temperatures
- Suitable for sealed for life applications
- Use in electrical applications that require grease
- Workplace safe and environmentally friendly
- Out performs competitive grease 5:1
