

MOUNTING INSTRUCTION FOR
GL1800 REAR REFLECTOR LIGHT KIT
PART NUMBER 45-1227R

Note: Read instruction thoroughly before installing.

1. Remove the rear reflector.
2. Place a piece of masking tape in the reflector area and for marking area for light and wire to be installed. Place the light on the reflector area and mark hole for wires.
3. Drill a 1/8" hole.
4. Clear area.
5. Put the light wires into the hole.
6. Remove the tape covering from light and press on firmly.
7. Attach the black wire to ground and the other wire to the accessory fuse on the left side of the bike.
8. We strongly suggest the purchase of part 18187, 18188, 18189, 18190 Accessory Switch Kits for the switching off all accessories. This bike has a computer board and attaching any accessory into the harness may cause damage.
