

THE TECH 10

THE TECH 10 PERFECTION THROUGH TRUE INNOVATION

UNIQUE ONE-PIECE MULTIPLE DENSITY FOOT CHASSIS

The one-piece co-injected foot chassis incorporates five different advanced polymer compounds in a single compact and lightweight piece to offer unique strength and flexibility where needed. Each part of the foot chassis is co-molded in a specific polyurethane compound matched to the need of every part of the boot.

A truly unique dedicated feel with performance throughout. The indestructible foot structure.

UNIQUE ANKLE CONTROL SYSTEM

Inner ankle brace features four pivot points to effectively control rotational and side forces while allowing freedom of precise movement.

Front and rear blade system protects from hyperextension while providing advanced flex control.
