## **DUAL SPRAY VENTURI JET KIT**

### **CARBURATOR KIT**

**for all KEIHIN FCR-MX carburetors**

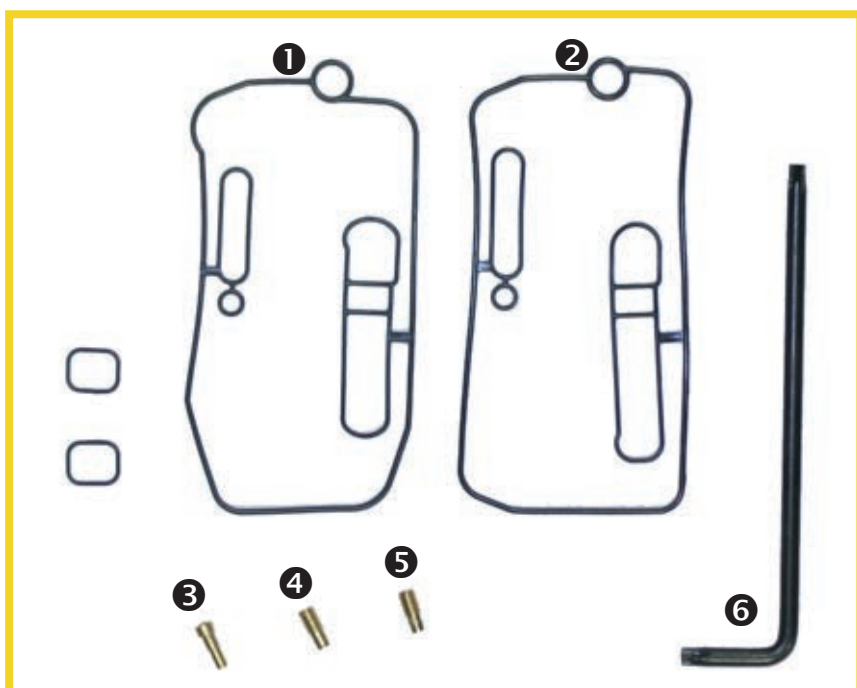

**P400000180002**

Our R&D Department has developed a new “Dual spray Venturi Jet” which redirects fuel flow, improves throttle response, eliminates 99% of all bogging, increases bottom-end performance and improves fuel efficiency.

This new carburetor kit works with fixed or adjustable leak jets and includes all necessary additional parts as well as complete easy to install instructions. It can be applied to all KEIHIN FCR-MX carburetors.

- Redirects fuel flow
- Improves throttle response
- Eliminates 99% of all bogging
- Increases bottom end performance
- Improved fuel efficiency
- Works with fixed or adjustable leak jets
- Includes all necessary additional parts
- Complete easy to install instructions
- Patent pending
