BELL®
HELMETS

04

ADVANCED SERIES

The world's most advanced FIA8860 helmets designed for the top-level professional racer. Bell's Advanced Series combines an ultra-lightweight aerospace carbon shell made using a high-pressure molding system with a high-performance energy absorbing liner with reinforced Kevlar to deliver state-of-the-art head protection.

12

CARBON SERIES

Bell's Carbon Series combines F1 styling, leading-edge design, superior ventilation, and an advanced energy management system with a carbon shell made using Bell's high-pressure molding system to deliver the best performance-to-value ratio in motorsports.

22

PRO SERIES

Featuring a contemporary design, ultra-lightweight carbon composite shell construction, E-Max Plus energy system, superior ventilation and outstanding fit, Bell's Pro Series helmets are designed for drivers at all levels of racing who demand industry-leading performance, professional features and the latest engineering innovations.

35

RACER SERIES

Designed for the experienced racer who expects outstanding performance, the Racer Series delivers superior styling, outstanding ventilation, high-quality construction, lightweight composite shell technology, an E-Max Plus energy system, Comfort-Plus fit and multi-purpose features.

PIT LANE

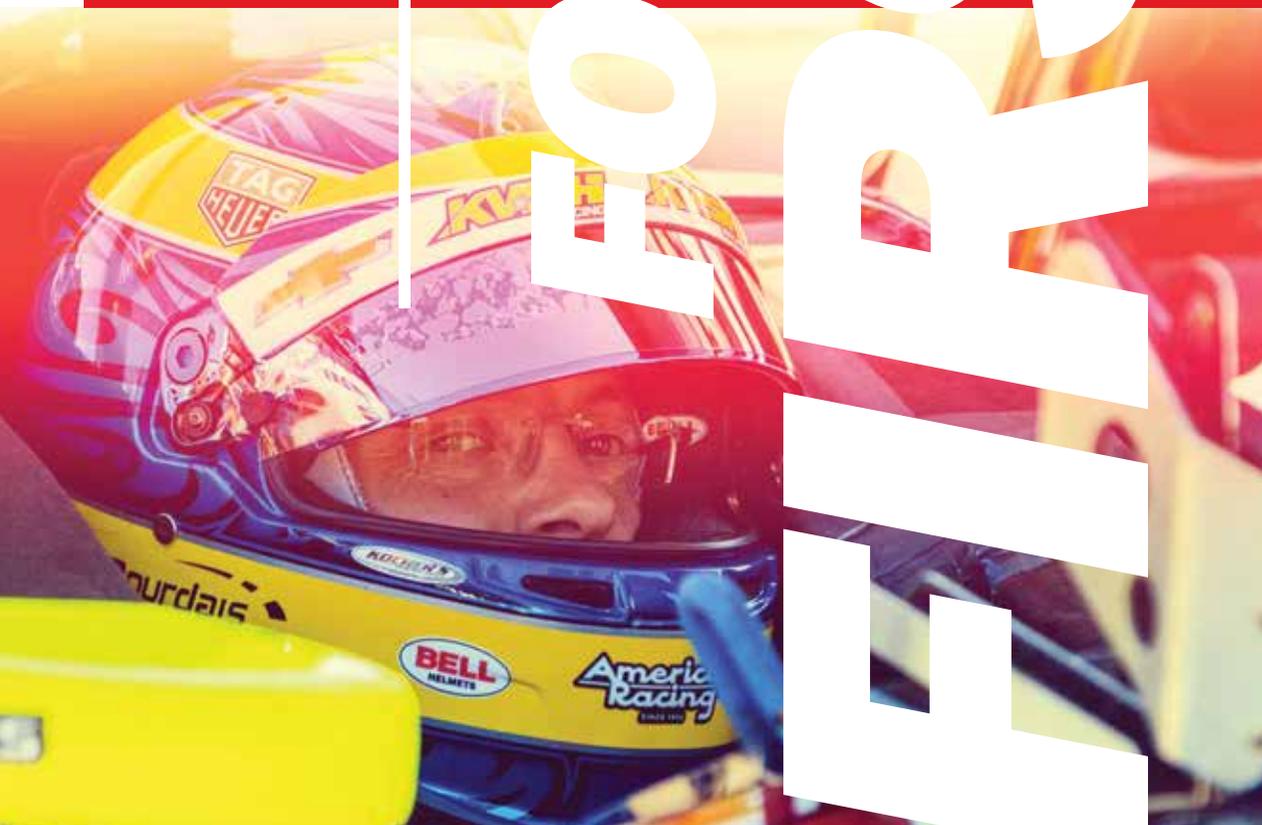

BELL HELMETS

FOR EVER FIRSTS

IT TAKES A LOT TO FINISH FIRST

To get there, you need an amazing combination of cutting-edge technology, seamless teamwork, carefully honed skill, and unwavering nerve. It also takes a good deal of precaution. As a company of firsts, Bell has never stopped the pursuit of serious head protection through innovation and an eye toward the future. We were the first to build a full-face helmet and the first helmet company to be Snell certified. That same forward thinking is exhibited in every high-performance helmet we build. Delivering the ultimate in safety, innovation, and flexibility, it's no wonder that more champions have proudly worn Bell helmets than any other brand.

AS ADVANCED AS IT GETS

NELSON PIQUET, JR.
FIA FORMULA E 2015 CHAMPION

ADVANCED SERIES HELMETS

At Bell, we know racing is serious business and our Advanced Series helmets are as serious as it gets. Unmatched in performance and protection with a combination of superior fit and a stunning finish, these aerodynamically sleek helmets are designed specifically for professional drivers. Meeting or exceeding the FIA8860 *super helmet* standard, the Advanced Series helmets are the pinnacle of technology and innovation, representing the best of Bell.

HP7

Developed through close collaboration with leading F1 drivers, the carbon fiber HP7 is aerodynamically sleek, lightweight and as efficient as possible for the intense demands of open-wheel and open-cockpit forms of racing. Meeting the FIA's *super helmet* standard, the most rigorous helmet standard on the planet, the HP7 is designed for seasoned professional drivers that compete at higher speeds.

Ⓢ THE HP7 IS AVAILABLE IN TWO VERSIONS, WITH OR WITHOUT THE DUCKBILL

THE WINNING EDGE

CARBON SERIES HELMETS

Drivers demand the perfect combination of performance and protection every time they hit the track, and Bell delivers with the Carbon Series. Designed to perform in a variety of demanding racing environments, our Carbon Series helmets feature ultra-light carbon shells, leading-edge aerodynamic styling, and superior ventilation for maximum air exchange. Perfect for racers looking for an edge.

M.8 CARBON

7 1/8" (57) - 7 5/8" (61+) | CARBON
SNELL SA2015, FIA8859-2015

The M.8 Carbon is the next evolution in Bell's legendary M Series design incorporating traditional styling, enhanced visibility, and maximum versatility allowing the helmet to be used in all forms of racing. With an ultra-lightweight carbon shell, pro-style interior, superior ventilation, and a large eyepoint for racers who require eyewear, the M.8 Carbon provides next-level comfort for drivers who want Bell's iconic styling and industry-leading performance.

#CHAMPIONSWEAR BELL

PRO SERIES HELMETS

CONDITIONS ARE ALWAYS FAVORABLE

No two races are ever the same, so be ready for anything with Bell's Pro Series. These incredibly versatile helmets deliver professional features, superior performance and reassuring comfort to drivers in all forms of auto racing. With innovative shell and shield design throughout the entire Pro Series, you'll be able to meet the unpredictable demands of any racing environment with confidence.

7¹/₈ (57) – 7⁵/₈+ (61+) | WHITE, MATTE BLACK
SNELL SA2015, FIA8859-2015

Based on the HP7 design and featuring a lightweight carbon composite shell using Bell's high-pressure proprietary molding system, the RS7 uses an innovative shell and shield design to improve acoustic comfort, aerodynamic performance and energy absorbing capacities. The sleek, aerodynamic design features an advanced ventilation system with 14 intake and extraction channels that can be used with or without air intake covers (sold separately). The RS7 double screen anti-fog (DSAF) visor and rubber gasket seal ensures air, water and dust will not enter the eyeport.

RS7

DOMINATOR.2

7¹/₈ (57) – 7⁵/₈+ (61+) | WHITE,
MATTE BLACK | SNELL SA2015

The legendary Dominator is the most innovative, popular and successful open-wheel helmet that Bell has ever produced – until now. A more-than-worthy successor to the legacy of its predecessor, the Dominator.2 incorporates the latest evolution in technology, while holding fast to the aggressive and distinctive original Dominator styling. Open-wheel, dirt-track, and kart racers will be ready to dominate with the aerodynamic stability, outstanding comfort, and superior ventilation of the Dominator.2.

GP.3

7 7/8 (57) – 7 5/8+ (61+) | WHITE,
MATTE BLACK | SNELL SA2015,
FIA8859-2015

The GP3 combines traditional F1 styling, versatile air intake system, double screen anti-fog (DSAF) visor, and lightweight carbon composite shell with leading-edge aerodynamic performance. A great option for open-wheel, formula racers and karters who demand professional features, performance and comfort, the GP3 provides maximum ventilation and clear vision in even the toughest track conditions.

GTX.3

7 7/8 (57) – 7 5/8+ (61+) | WHITE, MATTE BLACK
SNELL SA2015, FIA8859-2015

The GTX.3 features a lightweight carbon composite shell and sleek aero styling for enhanced aerodynamic performance at higher speeds. The GTX.3's integrated shield, double screen anti-fog (DSAF) visor and rear-facing vents allow air exchange and clear vision while preventing dust from entering the helmet, making it an ideal choice for racers competing in open-wheel, open-compartment, formula, karting, and dirt-track forms of racing.

GT5 TOURING

BELL

Based on the HP5 design, the GT5 Touring is designed primarily for closed-car forms of racing and offers high-end features and performance at an affordable price. The versatile design allows the GT5 Touring to be used as a large eyeport helmet with a standard shield or an open helmet with an adjustable visor peak, combining the feel of an open-face with the protection of a full-face model.

ROBB HOLLAND
FIRST AMERICAN TO COMPETE IN THE WORLD TOUR CAR CHAMPIONSHIP

7 1/8 (57) – 7 5/8+ (61+) | WHITE,
MATTE BLACK | SNELL SA2015,
FIA8859-2015

RS7-K

S (57) - XL (61+) | WHITE
SNELL K2015

The RS7 Kart is the karting-only version (non-fire-retardant interior) of the RS7. Based on the HP7 design and featuring a lightweight carbon composite shell, the RS7 Kart uses an innovative shell and shield design to improve acoustic comfort while enhancing aerodynamic performance and energy absorbing capacities. The sleek, aerodynamic design features an advanced ventilation system, a double screen anti-fog (DSAF) visor and a rubber gasket seal ensuring that water doesn't enter the eye opening in rainy conditions.

KC7 CMR

6 1/2 (52) - 7 3/8 (59) | WHITE, VENOM GRAPHIC
FIA/SNELL CMR2016

The KC7-CMR is an ultra-lightweight youth karting helmet based on the HP7 design platform. The sleek, aerodynamic design features an advanced ventilation system that can be used with or without air intake covers to maximize cooling and a double screen anti-fog (DSAF) visor. Certified to the FIA/Snell CMR standard designed for karting drivers under the age of 18 years of age, the KC7-CMR is perfect for the next generation of champions who wear Bell.

CARSON MACEDO

I WOULD RECOMMEND A BELL HELMET TO ANY RACER THAT WANTS LEADING-EDGE TECHNOLOGY IN HELMET SAFETY AND THE OPPORTUNITY TO WORK WITH THE BEST MANUFACTURER IN THE BUSINESS.

— CARSON MACEDO

◀ From the beginning of his racing career in 2001, Carson wore another brand. In 2016, he switched to Bell Helmets because he saw the innovative advances Bell was making to insure drivers were as safe and comfortable as possible.

RACER SERIES HELMETS

Become a part of Bell's rich tradition with a helmet from the Racer Series. The same innovative technology and attention to detail that has made Bell a leader in serious head protection for decades is available in an assortment of styles for all types of racing. The Racer Series is perfect for drivers who demand value and quality without the higher price tag. Start your own tradition by becoming part of Bell's.

LUCAS OIL OFF-ROAD SERIES AND TERRACROSS DRIVER

YOUR LEGACY STARTS HERE

M.8

EXPAND YOUR HORIZONS

The M.8 is the next evolution in Bell's legendary M series design. Incorporating traditional styling, enhanced visibility, and unrivaled versatility, the M.8 provides outstanding comfort and features including a lightweight composite shell, Comfort-Plus interior, and superior ventilation. The M.8 is a great choice for racers of all types who want a lightweight, multi-purpose helmet with a wider field of vision, especially for those who wear eyeglasses.

XXS (54-55) - 4XL (67-68) | WHITE, MATTE BLACK
SNELL SA2015

S (57) - XL (61+) | WHITE, MATTE BLACK, CIRCUIT RED, CIRCUIT BLUE
SNELL SA2015

The K.1 Pro is a multi-use, full-feature helmet with superior ventilation, aero styling and Bell's aggressive chin-bar design and front-chin gurney (Duckbill). Featuring lightweight construction, excellent fit and multiple ventilation options, the K.1 Pro is perfect for open-wheel racers, closed-car drivers and karters who demand superior features. The K.1 Pro can be used in an open-wheel configuration with air intake (included) and with a closed-car configuration with top forced-air insert (sold separately).

S (57) - XL (61+) | WHITE, MATTE BLACK | SNELL SA2015

The rich Bell tradition of innovation and superior engineering continues with the BR.1. The BR.1 is the first traditional helmet model in the industry that can be configured for side-air or top-air, forced-air ventilation. By utilizing an innovative kit system, racers can now customize the BR.1 to adapt to different forms of racing and varying seat configurations.

VADOR

S (57) - XL (61+) | WHITE, MATTE BLACK
SNELL SA2015

A complete design departure for Bell, the Vador incorporates a sinister blunt nose design and an aggressive fighter-pilot style shield. The Vador features a lightweight composite shell, comfortable interior and rear facing vents to prevent dust and dirt from entering the helmet. Perfect for racer's who demand aggressive styling and like to intimidate the competition, the Vador is designed primarily for use in the strenuous conditions of drag racing, karting and dirt-track racing.

MAG 1 RALLY

S (57) - XL (61+) | WHITE | SNELL SA2015,
FIA8859

Based on Bell's classic open-face styling, the Mag 1 Rally is designed for the demanding requirements of rally racing. Featuring a lightweight composite shell, superior comfort, removable cheek pads and a high quality intercom system with boom microphone and ultra-thin speakers, the Mag 1 Rally offers exceptional value at an affordable price.

SPORT EV

S (57) - XL (61+) | WHITE, MATTE BLACK
SNELL SA2015

The Sport EV, an extended vision helmet with an extra-large eye opening has been designed for the entry-level racer who demands value and quality at an affordable price. The all-purpose Sport EV incorporates classic Bell styling, a wide range of features and is a perfect choice for racers who prefer a wide eyeport or who wear eyeglasses.

SPORT

S (57) - XL (61+) | WHITE, GLOSS BLACK, SAFETY ORANGE
(NON-VENTED CHIN BAR, EDGE GRAPHIC | SNELL SA2015

The Sport is designed for entry level racers who demand value and quality at an affordable price. The Sport incorporates classic Bell design, standard size eye opening, comfortable interior, and a lightweight composite shell. The all-purpose Sport offers closed-face protection, a wide range of features, full ventilation and is a perfect choice for racers on a budget or enthusiasts just entering the sport.

GP2 YOUTH

4XS (51-52) - XS (56) | WHITE, MATTE BLACK,
METALLIC SILVER, SAFETY ORANGE
SFI 24.1 (2015)

The GP2 Youth is a fantastic choice for young racers who demand great styling, superior features, and an excellent fit in a smaller configuration. Built specifically for children and younger racers who need a youth helmet that is fire retardant, the GP2 Youth incorporates the same advanced technology, styling, protection and features developed for Bell's line of professional racing helmets. The SFI Youth Standard is recognized and accepted by racing and karting organizations including the Quarter Midget Association of America (QMA).

S (57) - XL (61+) | WHITE, GLOSS
BLACK, SAFETY ORANGE
SNELL SA2015

The Bell tradition of building high-quality open face helmets with classic styling lives on in the Sport Mag. Designed for racers who enjoy the feel of an open-face helmet the Sport Mag delivers value and quality at an affordable price.

MAG

SPORT

Bell Racing offers a range of accessories specifically designed for your Bell helmet. Choose from our line of authentic Bell replacement shields, helmet bags and aero kits designed to enhance your look and improve performance.

BAGS

No matter which Bell helmet you prefer, our helmet bags are specifically designed to keep your helmet safe during transport, while sporting the same style and durability that has made Bell the choice of champions.

Proper helmet fit is vital to the performance of a helmet during an impact. For the helmet to perform properly, it must stay securely on the head.

Measuring the head is only a starting point for the entire sizing procedure. Due to varying shapes, heads that are apparently the same size when measured by a tape may not necessarily fit the same size helmet. Measure the circumference of the head at a point approximately one inch above the eyebrows in front, and at a point in the back of the head that results in the largest possible measurement. Take several measurements. The largest measurement is the one you want to try on first.
