

To Insert Strap:

Press button on side of glasses to release arms. Insert strap into opening and “click” into place.

To Remove Strap:

Press on the same button to release the strap, then replace the sunglass arms.

Button

To Remove Lenses

1

Hold the bottom of the frame with one hand while holding the middle of the lens with the other hand.

2

With the hand on the lens, push inward with your thumb at the bottom of the lens. At the same time with the other hand, slightly pull down on the frame. Lens and bezel should “slip” out of the frame as shown.

To Replace Lenses

1

Put the hole on the top of the lens and place into tab at the top of the frame.

2

Push the bottom of the lens into the bottom of the frame until it securely locks in place.
