To Remove the Lenses:
1

Hold the frame in both hands with the lenses facing out. With thumb on each edge of the frame pull the lenses outwards.

2

The clips on the bezel of the lenses on either side of the frame should release from the frame.

To Insert the Lenses:

1

Push outside clip on lens bezel into the hole on the frame. Then push the other clip into the corresponding hole on the frame.

2

Lenses should fit securely onto frame.

Rely on premium motorcycle riding gear by Bobster if you're looking for quality and efficiency.
