STAINLESS STEEL STEP BARS

Polished and Black Powder Coated

Bully Step Bars are a step above the rest. They are made of the highest quality materials and are backed by our lifetime warranty. Bully step bars are mandrel bent for a smooth appearance. They go through a 6 stage polishing process to create a mirror like shine. The stainless retention clips will not rust, this guarantees a strong bond between the bar and step pad. Bully Step Bars have been designed to use existing holes in the truck's frame, so no drilling is required on most vehicles and mounting is as easy as possible. All of these features combine to ensure that Bully Step Bars will add a rugged, finished appearance to your truck...*for the life of your truck.*

LED TAIL LAMPS

The future in lighting is here today. APC is waaay ahead of the curve with these taillamps. Our fully functional LED models are available today with increased lighting capacity and quicker response to brake pressure than previous incandescent models. At 60 mph, that's almost a full car length increase in stopping distance. Most experts agree that more than one life will be saved due to the advent of LED technology.

APC's LED taillamps offer the highest quality fit, function, and finish. They're OE replacement legal, easy to install, and offer precision engineering, for that great custom vehicle look.

Digital Brake Controller

24 mhz ...for a safer, more reliable and smoother synchronized braking.

wheel adjusts percentage of braking desired

large, easy to read digital led display

TC-301

This is the most powerful electronic brake controller on the market. With a super micro chip this has a response time of 0.3 seconds, 80 times faster than most. Providing a major increase in safety...

- Can handle up to 8 brake systems

Trailer Connex™

trailer connectors

Eliminate the hassle and mess of traditional trailer connector wires. These are sleek, safe and simple to use. They eliminate the spaghetti type mess of other wires. They are made of the most durable, rugged design and construction. Just plug in and tow.

BUILT-IN

Audio Tester

trailer adapters (US patent 7,339,465 B1)

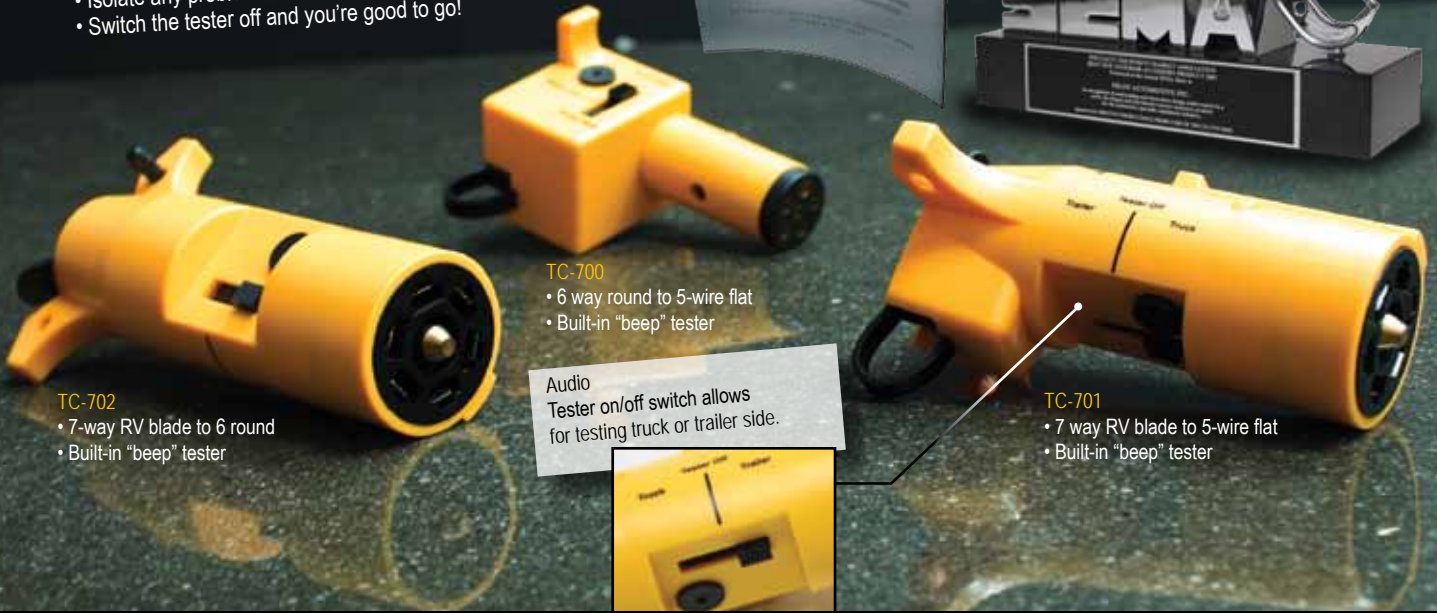

For the first time an individual person towing can easily test their lights, BRAKE lights and all electrical functions on their trailer while sitting inside of the tow vehicle. Simply click on the built-in "test" switch indicating "trailer" then test each trailer function individually, listening for each function to beep indicating a good working circuit. Should you discover a problem on your trailer by not hearing a beep on one of its functions, you can flip the "test" switch to check your vehicle's connections isolating exactly where your problem exists.

It beeps to let you know if all your trailer lights are functioning while sitting inside your truck!

- Tests all of your **trailer or truck** towing circuits, brakes lights & all electrical functions from the comfort of your vehicle.
- Switch on the "built-in" tester and test each **trailer or truck** electrical towing functions individually - A beep tone indicates good working circuit.
- Isolate any problems immediately to your **trailer or truck**.
- Switch the tester off and you're good to go!

- Popular Mechanics editor's choice award
- Sema best new product award
