

Burly Brand Fairings

Introducing the Burly Brand line of fairings: The unique universal designs can be used on most applications with a 5 ¾" headlight and include everything you need to easily install and get out on the road. The fairings are made of high quality molded ABS and paired with an opaque impact resistant acrylic windscreen for strength and durability. Included with all fairings is a universal mounting kit consisting of black powder coated heavy duty steel brackets with a range of adjustability fitting 35mm-49mm forks.

Check out the collection of motorcycle windshields & fairings we offer.
