

ContiRoad *ATTACK 2*

Our masterpiece in sport touring.

- Revolutionary new-to-the-market technologies to realize Continental's new level of grip, safety and dynamics in the radial sport-touring segment.
- TractionSkin, the revolutionary microroughness of the tread optimizes the mechanical adhesion and realizes a safe and fast running-in time on the market.
- MultiGrip technology improves mileage by wear resistant central tread area and safety in curves by higher grip in shoulder area.

C = Reinforced carcass
GT = for heavy motorcycles

MultiGrip

Makes it possible to use a homogenous grip grading with a single compound thanks to temperature controlled curing of the tire during the production process. • besserer Grip dank flexibler Schulterbereiche

- Shoulder area, flexible = Grip
- Central tread area, wear resistant = Mileage
- Continuous transition

TractionSkin

TractionSkin, a revolutionary new micro-rough tread surface, virtually puts an end to tire break-in. This is possible due to a new mold coating technology which eliminates the need for tire-release agents.

ZeroDegree

0° steel-belt construction guarantees excellent stability at high speeds.

Handmade in Germany

For generations nearly all of our radial tires have been produced with great passion, skill and expertise in Korbach on the beautiful lake Eder.
