

A full-page photograph of two motorcyclists riding on a paved road. The lead rider is on a yellow and black Yamaha motorcycle, wearing a black leather jacket and a black helmet. The second rider is slightly behind and to the right, also in black gear. The sky is a deep blue with wispy white clouds. The road is asphalt with white lane markings. Long shadows of the riders and their bikes are cast onto the road surface.

- Constructed using 1.2-1.4mm top grade drum dyed cowhide leather with a combination of perforated and non-perforated leather
- Aerodynamic race profile speed hump with perforated top leather panel combined with a hollowed out speed hump for increased ventilation
- Removable CE-approved shoulder armor, elbow, and knee protectors can be adjusted using hook and loop
- Accordion-style expansion panels at shoulders, elbows, waist, and knees for increased flexibility and a performance fit
- Large seamless panels in the bottom and rear thigh areas to maximize abrasion resistance
- Accordion-style expansion panel along the upper-side of the suit offers increased flexibility and an extended range of comfort for different back protector sizes
- Accordion-style expansion panel on the backside of the calf offers a better fit and more flexibility
- Heavy-duty stretch panels made with DuPont™ Kevlar® material in the arms, inseam, and calves for ease of movement
- TPU molded stainless steel external armor in the shoulders and elbows offers increased protection
- Rotated sleeves and pre-curved legs for a performance fit in the riding position
- Comfort cuffs feature a neoprene stretch panel that can accommodate different wrist sizes and is soft to the touch
- Mesh lining throughout the suit is removable and washable
- Triple-stitched with high strength, bonded nylon thread
- Soft neoprene collar for added comfort
- Cuffs feature a spring loaded zipper to eliminate flapping
- Cortech® knee sliders and storage bag included
- YKK® zippers

Waterproof Overjacket and Overpant

This jacket is part of a two-piece racing rainsuit, designed to fit over your one- or two-piece road racing suits. It was developed to keep racers dry in high-speed, wet racing conditions, improving their comfort and concentration throughout a race.

- Waterproof, clear Race Rainblocker (RR) material with taped and sealed seams
- Stretch panels through the arms, back, shoulder, and sides ensure a snug fit at speed while not limiting flexibility
- Bib-style fit with hook and loop panel running through the crotch and attaching to the front of the jacket
- Elastic sleeve cuff ensures a snug fit on any size suit sleeve
- Back of RR jacket is cut to fit a wide range of speed humps and specifically any Cortech® race suit speed hump

Adrenaline 2.0

Leather Race Jacket

Black/Blue

A premium leather jacket patterned after the top half of our Adrenaline professional one-piece road race suit. It features internal CE armor and external hard armor, and an aerodynamic speed hump on the back. Combine this with our Apex pant, and connect via the full-circumference zipper for a functional two-piece leather suit.

- Constructed using 1.2-1.4mm top grade drum dyed leather
- Perforated panels for maximum airflow
- Low-profile aerodynamic speed hump to reduce air friction while riding
- Removable CE-approved KNOX® shoulder and elbow armor
- Removable CE-approved dual-density KNOX® back protector
- Accordion expansion panels at the shoulders, elbows, and waist for flexible performance fit
- Heavy-duty stretch panels in the arms for ease of movement
- TPU molded stainless steel external armor in the shoulders and elbows for increased protection
- Pre-curved sleeves for performance fit
- Adjustable waist belts help to fine tune the fit
- Removable, insulated vest liner adds warmth
- 360° and 8" jacket-to-pant attachment zipper with pant side included
- Zippered chest mesh liner pocket
- Triple-stitched with high-strength, bonded nylon thread
- Soft neoprene collar for added comfort
- Snap-lock zipper pulls on cuffs to eliminate flapping
- Mesh-lined, zippered hand pockets that double as vents when open
- Heavy-duty YKK® Original Zippers

LNx 2.0

Women's Traditional Leather Jacket

If you are a woman looking for the protection of leather without the racetrack styling, the LNx 2.0 jacket is something you should seriously consider.

Black

- Women-specific design, style, and fit
- Constructed using 1.2-1.3mm top-grain, grade A aniline drum dyed cowhide leather
- Accordion stretch panels in the shoulders and waist for increased range of motion
- Stretch panels on sides and underarms for additional comfort
- Pre-curved and rotated sleeves for a performance fit and reduced rider fatigue
- Perforated leather draws air in, while the two large rear vents exhaust hot air out
- Zippered rear expansion panels for improved fit while in riding position
- Removable, CE-approved shoulder and elbow armor, and triple-density articulated back protector
- Zip-out 75g polyfill insulated vest liner extends the seasonal use of the jacket
- Mesh lined hand pockets double as vents when needed
- Internal chest pocket and repeating storage pockets on jacket and liner
- Stitched with high-strength bonded nylon thread
- 360° and 8" jacket to pant zipper attachment with pant side included
- YKK® main zipper and snap-lock cuff zippers
- 3M™ Scotchlite® reflective piping helps increase nighttime visibility

Textile Sport Jacket with Waterproof/ Breathable Liner & Removable Thermal Vest

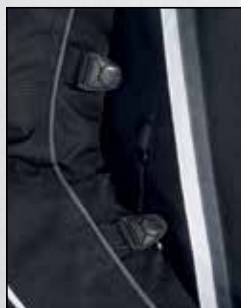

Black/Hi-Viz

For riding in cooler climates, this jacket features a thermal vest that can be removed when the temperatures rise so you stay comfortable. The pipeline ventilation at the shoulders can also be opened to help you stay cool.

- Performance-cut
- Pre-curved, rotated sleeves with soft microfiber cuffs increase comfort and performance in the riding position
- Elbow expansion panels for increased comfort and mobility
- Carbolex® 600 denier outer shell material
- 1680 denier ballistic abrasion-resistant material in the shoulders and elbows
- Two Pipeline front intake pinch vents offer excellent direct-to-the-body ventilation when open
- Two adjustable Pipeline exhaust vents on the back allow for exceptional flow-through ventilation
- Double hook and loop closures keep water out of the vent openings when closed
- Rainguard® waterproof, breathable liner
- Removable thermal vest liner
- 360° Phoslite® reflective piping and Cortech's signature reflective rear triangle increase nighttime visibility
- Mandarin-style collar with soft microfiber trim
- Adjustable takeup straps at the biceps and forearms for a secure and snug fit
- Removable CE-approved armor at the elbows and shoulders with an articulated triple-density back protector
- Expansion panels and adjustable waist belts with TPR pulls fine tune the fit
- Two hand warmer pockets and four interior pockets
- Jacket to pant 8-inch zipper attachment, with pant side included
- ESO® main zipper

GX-Sport Air 5.0

Textile Mesh Sport Jacket for Warmer Temperatures That Features a Removable Waterproof Liner & Thermal Vest

Black/Blue

From cool, wet riding days to high temperatures, the GX-Sport Air 5.0 is a versatile mesh jacket for almost all climates.

- Performance fit constructed using 600 denier Carbolex® polyester fabric and Armor-Link 3 mesh
- 1680 denier ballistic polyester in the shoulders, elbows, and forearms
- Accordion stretch panels at the waist and elbow, plus stretch fabric built into the underarms for added comfort and range of motion
- Mandarin-style collar and adjustable zippered cuffs feature soft microfiber trim
- Pre-curved and rotated sleeves provide comfort and reduce rider fatigue
- Adjustable take up straps at bicep and inside forearm for a custom fit
- 360° Phoslite® reflective piping, panels, and Cortech signature reflective rear triangle help increase nighttime visibility
- Newly designed CE-approved Armadillo® armor in the elbow and shoulder with a revised articulated triple-density back protector
- Aquatherm™ two-stage removable waterproof liner and thermal vest liner
- Jacket has two external hand warmer pockets, two internal storage pockets in the liner, and a napoleon pocket inside the front zipper flap
- Removable waterproof liner has two storage pockets, as does the removable thermal vest, so you always have storage no matter how the jacket is configured
- Adjustable waist belts with TPR pulls help fine tune the fit
- Includes jacket/pant 8" zipper attachment with pant side included
- Equipped with ESO™ zippers including locking Cortech main zipper

VRX 2.0

Textile Sport Jacket With a Waterproof/Breathable Barrier and a Removable Full Sleeve Thermal Liner

Black/Hi-Viz

This waterproof jacket is best for use in cooler climates due to the full length thermal liner with 100G polyfill insulation, which can be removed if necessary.

- Performance-cut, abrasion-resistant 600 denier Carbolex® polyester outer shell
- Shoulder, upper arm, and rear zippered vents
- Rainguard™ waterproof and breathable barrier
- Cortech Z.O.Q. (Zip-Out Quilted) liner features warming 100g polyfill insulation in the body and 80g insulation in the sleeves
- Pre-curved and rotated sleeves increase comfort
- Adjustable sleeve take-up straps for a perfect fit
- Phoslite® reflective piping and Cortech signature reflective rear triangle for better nighttime visibility
- Removable, newly designed Armadillo® CE-approved armor in the shoulders and elbows, and a revised articulated triple-density back protector
- Microfiber-lined mandarin collar and hook and loop adjustable microfiber lined cuffs
- Two hand warmer pockets, interior mobile phone pocket, and interior storage pouch
- Adjustable waist belts with TPR pulls help to fine tune the fit
- Includes an 8" jacket/pant zipper attachment with pant side included
- ESO™ zippers

NEW

The Primary Single Layer Riding Jeans

These aren't your regular denim jeans. Sure, they look like regular jeans on the outside, but using a new fabric, we have created a pair of riding jeans that do not need bulky liners to keep you protected and offer you more protection and comfort than you were expecting.

- Single-layer design for increased comfort and maximum protection
- 13.5oz cotton, Cordura®, nylon, and DuPont™ Kevlar® blend fabric eliminates the need for added liners
- 150% - 350% more tensile strength than standard cotton denim
- 125% - 200% higher tear strength than standard cotton denim
- Estimated 500% increased abrasion resistance than cotton denim
- Assembled using high strength 3-ply tec-75 nylon thread
- Triple over-lock safety stitched critical seams and added internal safety stitching
- Relaxed fit seat and thigh, straight cut legs, and mid-rise waist for comfort
- Western style 6-pocket design
- Button closure and YKK® zipper
- Internal pockets designed to fit optional SAS-TEC® knee and hip armor
- Adjustable knee armor pockets for a custom fit
- Hidden reflective tab on bottom hem for increased low-light visibility

KEVLAR® **YKK®** **3M Scotchlite®** **Cordura®**
Reflective Material

NOTE: ALL JEAN SIZES HAVE A STANDARD 32" INSEAM

**NEW**

The Standard Lined Riding Jeans

You know better than to ride in cotton denim riding jeans, so we've taken your favorite 14oz denim jeans and fully lined them to add extra protection from tear and abrasion. You get added safety without jeopardizing your style.

- 14oz 100% cotton denim outer shell; Waist to shin 165GSM lining made with DuPont™ Kevlar
- Assembled using high strength contrast polyester thread
- Double over-lock safety stitched critical seams and added internal safety stitching
- Relaxed fit seat and thigh
- Straight-cut legs
- Mid-rise waist for comfort and coverage
- Western style 5-pocket design
- Button closure and YKK® zipper
- Internal pockets designed to fit optional SAS-TEC® knee and hip armor
- Adjustable knee armor pockets for a custom fit

Apex Air TX Pant

Textile and Mesh Riding Pants with a Zip-Out, Removable Waterproof Liner

These versatile mesh riding pants are perfect for riding in warmer temperatures, but still include a waterproof liner in case of rain.

- 600 denier Carbolex® shell with high flow mesh panels in the front and lower back leg for increased air circulation
- 1680 denier ballistic polyester knee panels for added protection
- Full-length zip-out waterproof liner
- Microfiber fleece inner waist liner for added comfort
- Phoslite® reflective fabric helps increase nighttime visibility
- 1680 denier ballistic polyester seat panel to minimize slipping
- Double-stitched construction
- Snap and hook closure complete with zippered fly
- Hook and loop adjustable waist belts for improved fit
- Accordion stretch panel in the rear waist increases range of motion
- Two-way stretch fabric in the crotch, outside leg, and upper knee for improved fit and flexibility
- Removable, CE-approved knee armor with three-position knee armor pockets and removable soft hip armor
- Two zippered top-entry hand pockets
- Extra-long side entry bottom zippers for easy on and easy off
- Equipped with 8" pant/jacket zipper attachment with the jacket side included

Latigo

Back Protector with Hard Armor and Memory Foam

Combining hard armor, memory foam, and an adjustable kidney belt results in a very protective CE level 2 back protector.

- CE-approved level 2 back protector certified to the standard revision (EN1621-3:2014)
- A combination of segmented, plastic plates backed by dense memory foam allow the back protector to bend into the riding position and keep the rider safe from high energy impacts
- Removable, adjustable shoulder straps allow the rider to customize the fit to best integrate with a one-piece suit or jacket and pant
- Padded waist straps support kidney protection and an adjustable fit around the waist
- Adjustable chest strap offers an additional method to fine tune the fit
- Mesh inner and outer construction helps maximize ventilation

SAS-TEC

Body Protection Systems

A trusted name dedicated to providing proven protection at the highest levels, SAS-TEC has been at the forefront of innovation in body armor since 2004.

- Utilizes 3-D molded construction, allowing the armor to conform better to the body, increasing comfort
- Features "Adaptive Absorption" - the foam's cells are embedded with air, providing a progressive absorption behavior. The greater the impact, the greater the resistance of the foam grows
- The viscoelastic foam with memory effect used in SAS-TEC® armor allows for maximum flexibility, provides outstanding shock absorption values, and allows armor to return to its natural shape
- Larger surface areas allow more efficient dissipation of applied force, reducing the impact of energy to the body
- Protectors are lightweight, making them almost unnoticeable while wearing your riding attire
- Level 2 CE certified protectors surpass the required values of EN 1621-1:2012
- Level 1 CE certified protectors surpass the required values of EN 1621-1:2012 by approximately 30% to 40%

Impulse RR Glove

Track and Street Long-Gauntlet Performance Gloves

Whether you're doing track days or spirited riding on your favorite twisty roads, the comfortable leather gripping area and the hard knuckle protection of these gloves give you great feel of your controls without sacrificing protection.

White/
Blue

- Top-grain, perforated, and non-perforated cowhide leather construction
- Double-stitched seams and double-layered leather in the impact areas
- Silicone-printed, anti-slip throttle guard in the palm
- TPU molded polyurethane knuckle and finger protectors
- TPU molded slider on the outside of palm adds additional impact protection and abrasion resistance
- Dual-gauntlet closure and wrist strap create a secure fit
- Impact-absorbing foam on the top hand, fingers, palm, and gauntlet help protect the hand and wrist bones
- Pre-curved palm and fingers combine with finger expansion panels to reduce hand fatigue and improve dexterity
- Soft, moisture-wicking polyester lining keeps the hand dry

With flexible welded hard knuckle protectors, synthetic suede palms, and goatskin overlays this glove is suitable for both street and off-road riding.

- Abrasion-resistant, Tongda palms with Nappa goatskin overlays for better grip and comfort
- Tongda overlay on the thumbs to help resist wear from the grip flanges
- 3D Turtle Protector on index and middle finger has a stereoscope shape for a lightweight, performance fit without the extra bulk
- Neoprene knuckle and wrist panels provide flexible comfort and roost protection
- Heavy Lycra® fourchettes increase comfort and finger dexterity
- Two-way spandex material on the thumbs, index, and middle fingers
- Four-way air mesh material on the back of the hand, pinky, and ring fingers
- Silicon printing on the index and middle fingers for better grip on the brake and clutch lever

DX3 Glove

Using synthetic suede on the palm and high airflow mesh on the back of hand, this is an excellent glove for light street and off-road use.

- Chicron 0.8mm palm construction provides excellent abrasion-resistance without sacrificing bar feel and control
- Chicron 0.8mm overlays in the palm, heel, and thumb for added protection
- Durable, two-way stretch spandex fabric in the thumb, index finger, and top of hand for increased comfort
- Increased airflow provided by open air-mesh fabric in the middle, ring, and pinky fingers
- 2.0mm neoprene cuff and knuckles for a comfortable form fit and protection
- Stretch spandex forchettes improve comfort and dexterity
- Strategically positioned welded TPR knuckles and top of hand protectors
- Adjustable TPR hook and loop closure for secure fit

Scarab 2.0 Winter Glove

Our best-selling winter glove combines the design of a full gauntlet road race glove, adds a HiPora® waterproof liner, and finishes with 100 grams of 3M Thinsulate® insulation. This is a serious, high performance winter glove for riders who do not let the elements get in the way of their ride.

- Constructed using abrasion-resistant drum dyed goatskin leather
- HiPora® three-layer waterproof and breathable liner
- 100g 3M™ Thinsulate® insulation
- Abrasion-resistant molded Hitena® knuckle and outside wrist guards
- Hitena® wrapped PU foam protectors on the fingers and heels of the palms
- Touchscreen compatible conductive thumb and index fingers
- Includes a TPR shield wiper blade and 3M™ Scotchlite reflective piping
- Pre-curved fingers, dual hook and loop gauntlet cuffs, and plush 2mm fleece liners

Ventilated Race Boot

This perforated road racing boot features replaceable aluminum toe and shin sliders, and TPU molded heel protectors, shin guards, and ankle torsional stiffeners for a high level of outer armor abrasion resistance. The TPU torsional stiffener and TPU heel protectors are fitted over a carbon fiber heel guard with a layer of shock absorbing latex foam under the carbon fiber for added impact resistance.

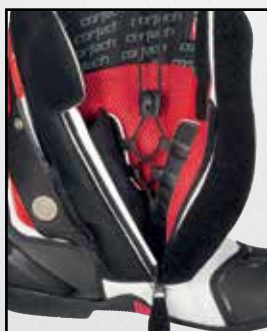

- Vented Mycro Tech™ upper
- Air-Mesh™ breathable lining
- Carbon fiber ankle protectors backed with shock absorbing latex foam
- Inner lacing system with drawstring adjustment
- TPU molded torsional stiffener
- Vented TPU molded shin guards backed with shock absorbing material
- Vented contour TPU heel protection
- TecnoGI thermoplastic toe caps with low profile design
- Aluminum and plastic replaceable toe sliders
- Replaceable aluminum shin sliders
- VR two-color Cortech RR sole
- Autolock zipper cover with adjustable hook and loop flap
- TPU shift pad
