

DR_x Beasley's™

Your Detailing Prescription

Application Instructions

1. Apply Carbon Glaze to a foam polishing pad.
2. Buff surface evenly with a polishing machine.
3. Remove residue with a clean microfiber towel and repeat if necessary.

Additional Tips

For best results, protect carbon fiber afterward with Dr. Beasley's **Formula 1201** or **PlasmaCoat**. Before applying, test a small amount in an inconspicuous place to check compatibility with surface.
