

DR_X Beasley's™

Your Detailing Prescription

1. Shake well.
2. Spray directly onto surface, and allow to sit for several minutes.
3. Using a clean brush or cloth, agitate the area and rinse with water.
4. Repeat if necessary.

For maximum results after using the Premium Degreaser, prep and protect your car with Dr. Beasley's Exterior pH Neutralizer, followed by the appropriate Dr. Beasley's protection product (Wheel Seal, Bug Barrier, Carnauba Wax, etc).

Before applying, test a small amount in an inconspicuous place to check compatibility with surface.
