

## DrySpec H35 A-Lock Luggage Guide

The DrySpec H35 waterproof case is an incredibly durable and versatile luggage solution. Rugged, military spec construction provides certified protection from impact, water intrusion and vibration while a simple and symmetrical design allows this case to be utilized as a top case or side case. To improve function even more, optional Top Load Liners give side-loaders the convenience of top-loading luggage and help prevent your gear from falling out when the lid is opened. Plus there are interchangeable MOLLE style accessory mounting panels (both internal and external) available to mount compatible equipment pouches. Accessorize away, we won't judge.

The DrySpec A-Lock system consists of a luggage based puck and lock system that fixes to an A-Frame plate that is mounted to top or side luggage racks. The A-Frame plates use a Monokey hole pattern which makes them compatible with many top racks and side carriers. The wedge shaped design of the A-Lock system holds your cases in place no matter how rough the terrain can be yet provides a nearly effortless and smooth track for mounting and removing your luggage.

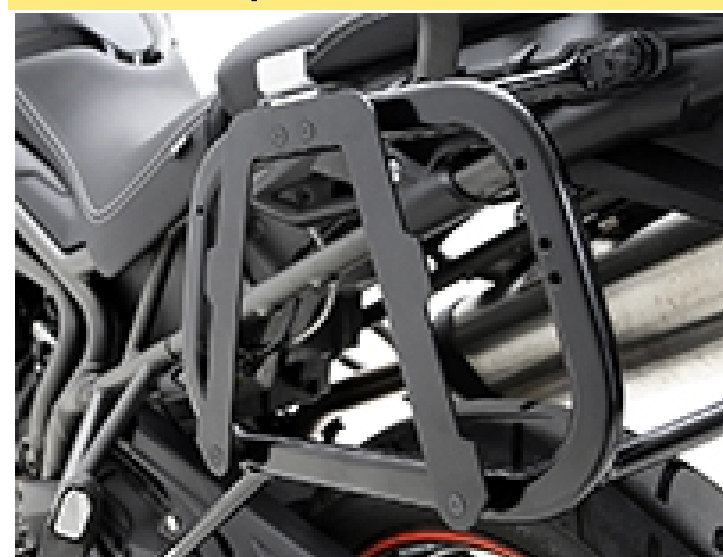

### H35 70 Total Liter Side Case Set

DrySpec H35 A-Lock Waterproof 35L Side Case Set in Black is ideal for motorcycle travel across difficult terrain, uncertain weather, or unsecure locations. A DrySpec H35 A-Lock Waterproof 35L Side Case Set in Silver is also available.

- Total capacity of 70L
- A-Lock lockable mounting system
- TSA approved case locks
- Submersible
- Impact resistant
- Can be used as top case or side case

### A-Lock Adapter Kit for SW-MOTECH EVO & Quick-Lock Side Carriers

DrySpec A-Lock Side Case Adapter Kit for SW-MOTECH EVO / PRO & most GIVI PL series side carriers is required to mount a set of H35 cases to your luggage rack. The wedge shape design of these frames provide solid and secure mounting that can be done with one hand.

- Powder coated steel frames
- Stainless steel rack latches
- Low profile design is soft luggage friendly
- Includes spacers for asymmetrical racks
- Compatible with SW-MOTECH EVO or PRO side carriers
- Compatible with most GIVI PL series Monokey side racks

### Top Load Liner Set for H35 Side Cases

DrySpec Top Load Liner Set for H35 Side Cases is ideal for loading and unloading loose items or separate bags in your case as the liner prevents items from falling out when open. Also available for one side with the DrySpec Top Load Liner for Single H35 Case.

- Combines side loading strength with top loading convenience
- Mounts snugly to the inner wall of the H35 case
- Innovative pivoting mount system permits wider opening
- Easily removed without tools

### Inner Lid Panel MOLLE Accessory Mounting Kit

DrySpec Inner Lid Panel MOLLE Accessory Mounting Kit for H35 Cases is ideal for mounting equipment or pouches that you want to keep organized and ready but inside your luggage such as tools or first aid kits.

- Compatible with MOLLE or PALS mounting systems
- Provides mounting options for strap or hook and loop fastener mounted equipment
- Rugged 1/8in (3mm) Aluminum Construction
- Textured black powder coat finish
- Fastens directly to H35 with no drilling or cutting required

### Side Panel MOLLE Accessory Mounting Kit

DrySpec Side Panel MOLLE Accessory Mounting Kit for H35 Cases is ideal for mounting equipment or containers that you want readily available but not inside your luggage such as fuel or emergency gadgets.

- Compatible with MOLLE or PALS mounting systems
- Provides mounting options for strap or hook and loop fastener mounted equipment
- Rugged 1/8in (3mm) Aluminum Construction
- Textured black powder coat finish
- Requires drilling to mount
