

FEATURE

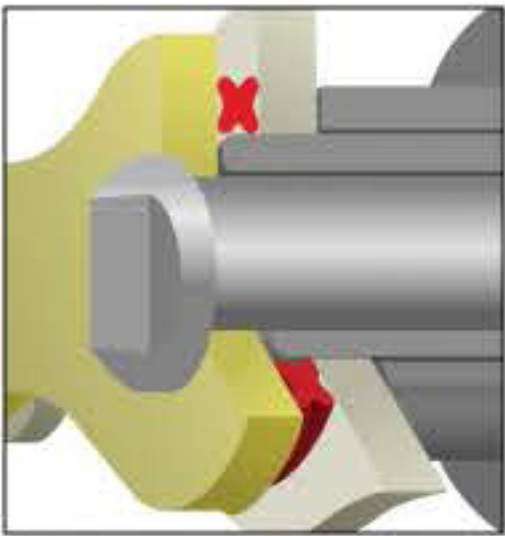

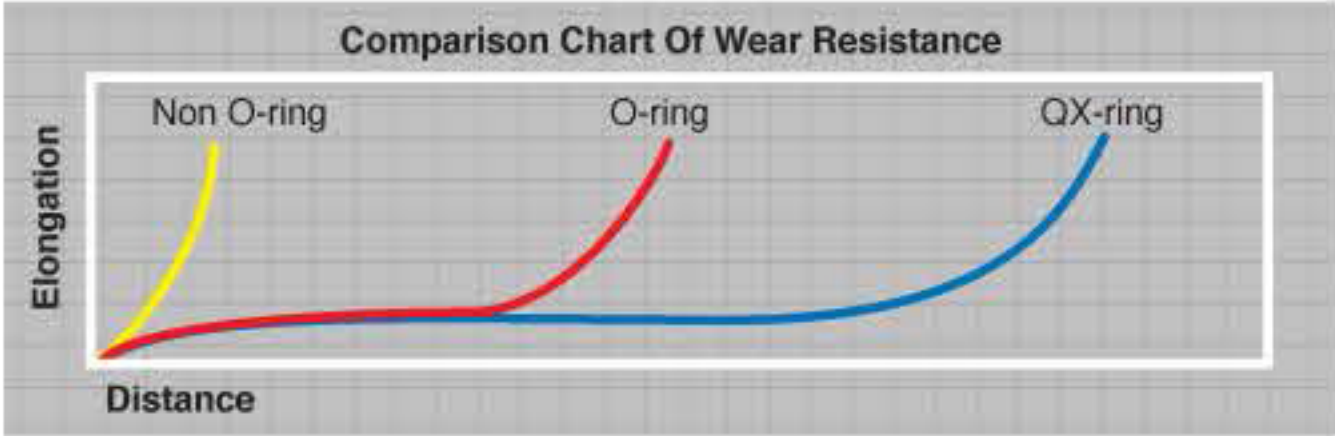

Feature

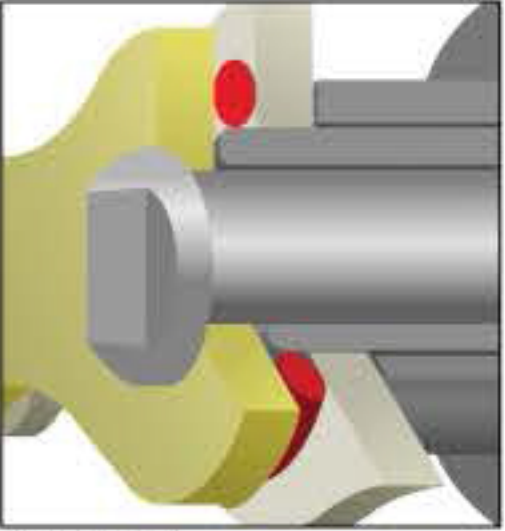

Quadra-X Ring (QX-Ring)

Great Wear Resistance!

Quadra-X Ring design reduces friction by as much as 40% because of smaller contact area. The X-Ring's 4 point contact patch also offers better sealing than conventional o-rings. Lab tests show the Quadra-X ring chains last 50% longer than a standard O-ring chain!

EK's Quadra-X Ring

O-ring chain

Color Options

Attract Eyes!

EK offers some chains in special powder coated colors. These chains make your motorcycle good looking and cool. Dress up your motorcycle!

Color availability

Gold, Chrome, Red, Blue, Green, Black, Yellow, Purple, White, Orange, Pink
Metallic Gold, Metallic Silver, Metallic Red, Metallic Blue, Metallic Green, Metallic Orange

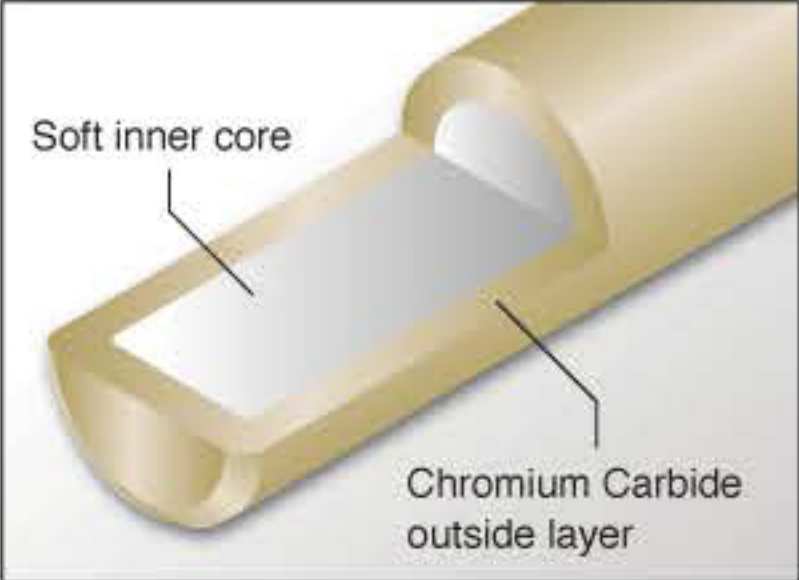

CRH Pin Treatment

Rigid and long life!

EK's exclusive CRH pin treatment provides an extremely hard outside coating and softer inside to increase strength and reduce chain wear. The Chromium Carbide pin surface coating also offers superior impact and shock absorption while reducing oxidation caused by nature's elements.

CRH pin is equipped on the following products.

- 420SH, 428SHDR, 520MRDL6, 520MRD6(For Motocross)
- 520RX(For Road Racing)
- 530DR2, 530DRZ2(For Drag Racing)

Screw Type Master Link (SLJ)

Easy Installation for your new Chain!

EK's screw type master links do not require any special tools for installation. This unique patented link gives a rivet-like fit, using only an 8mm wrench and a pair of pliers.

You need only an 8mm wrench and a pair of pliers.

Lightening Holes

EK's Original Technology!

Lightening holes on the side plates

1. Reduce the chain's overall weight by 3%, without compromising tensile strength.
2. Extend the service life by dissipating heat.
3. Helping reduce dirt and mud build-up.

Lightening Holes
