

EE Lower Right Fork Leg Guard Installation Instructions

- 1** Using a 10mm t-handle or socket remove both of the right side axle pinch bolts. (Fig 1)
- 2** Place the provided spacers between the fork leg and the fork guard as shown. (Fig 2)
- 3** Use the provided longer 8 x 35mm Hex head bolts in place of the original pinch bolts to install the fork guard as shown. (Fig 3)
- 4** Using a torque wrench with a 10mm socket, torque the pinch bolts to the manufacturer's torque specifications. (Fig 4)
