

Clean, Polish & Protect.  
Your on-the-road detailing kit for  
chrome, plastics, aluminum,  
paint, fiberglass & more

**NEW**

# ON THE ROAD AGAIN . . .

For some people it's one of the pleasures of owning a motorcycle. For others it's pure drudgery. But for most bike owners, the business of finish care is an essential task. Maintaining the finish is a priority because appearance is usually a major reason why you chose your bike, right? It's not just an attitude you have while riding, but rather a way of life. That's why our Flitz Cycle 2Go Care Kit is an essential tool to have in your saddlebag or backpack.

**Chrome/Stainless Cleaner:** Removes water spots, road dirt, oils/grease on chrome, painted wheels as well as any of the high-polished parts.

**Speed Wax:** Removes bug spots on painted or plastic parts & leaves a protective coating for a quick "show & shine" finish. Will not leave a white residue on surface or around decals like a paste wax does.

**Flitz Metal, Plastic, Fiberglass Polish:** Removes hard water spots, burned on rubber & nylon from boots & rain gear on pipes, bluing on pipes, fine scratches, oxidation, fingerprints & more! Leaves a protection behind that lasts up to 6 months.

**Item# CY 41503 Packaged in resealable clamshell**

**Kit Contains:**

- Flitz Metal Polish-Paste (1.76 oz)
- Chrome/Stainless Cleaner (1.7 oz)
- Speed Wax; luster enhancer (1.7 oz)
- Microfiber Cloth; Thick (12" x 12")
- Carry-Along Black, Velvet Pouch (will hold all Flitz products for traveling)

All products fit inside this black, velvet pouch.  
Carry-along inside your saddlebag or backpack.
