

'06-07 YAMAHA YFZ450 SPECIAL INSTRUCTIONS

The MegaBomb and PowerBomb require a slight modification for proper fitting and performance.

1. Make sure the engine is completely cool prior to installation and the vehicle is in a stable position.
2. Remove stock header as specified in instructions.
3. Bend brakeline support until enough clearance is gained to install the FMF Header without any obstructions. Take care not to damage oil line.
4. Follow header instructions for installation.
