## SIZE CHART

Measure your feet (heel against a wall and measure out to the end of your longest toe) and review the size conversion chart below. Your feet should be at least $3 / 4$ inch 'shorter' than the insole. This measurement will give you the correct toe clearance for safety and comfort. If you find that you need to exchange after purchase, let us know, and we will exchange sizes for you.

## SIZE CONVERSION CHART

| EU Size | 29 | 30 | 31 | 32 | 33 | 34 | 35 | 36 | 37 | 38 | 39 | 40 | 41 | 42 | 43 | 44 | 45 | 46 | 47 | 48 | 49 |
