### Hose Clamps in Stainless Steel

Entire clamp is Stainless Steel including the screw. This product is manufactured in Sweden with rolled up band edges and smooth inside surface of the clamp this spares the hose and insures a high and uniform tightening force. With the flexible screwdriver you can tighten and slacken the clamp from an angle of 90° without slipping.

## Logo Displayer Counter Top Unit

*Gardner-Westcott also has a great way to showcase our very popular line of emblem stamped hex caps. Now your customers can see first hand the exceptional quality of each hand stamped emblem displayed on a green plastic stand that measures 7" high x 7" wide with a 3" base and can be placed in a highly visible area on your counter top. Each logo hex cap is identified with white letters clearly showing the Chevy Bowtie, Chevy SS, Chevy RS, Pontiac, Pontiac GT, Pontiac GTO, 350, 454, Oldsmobile Rocket, Chrysler Pentastar, Chrysler Mopar, Hemi Mopar, Dodge Ram, Ford Oval, Ford Vintage V-8, Mustang Pony, Flame and Skull. And we have added a few head styles to round out the display like Hex Caps Chrome Plated, Hex Caps Polished Stainless Steel, Allen Head Chrome Plated, Allen Head Stainless Steel Polished, 12 Point Chrome Plated, Button Head Allen Chrome Plated, Torx Button Head Chrome Plated and Flat Head Allen Chrome Plated.*

## Cylinder Base Fasteners

Our Acorn Style Nut has a 9/16" Hex like the 80cu. stock cylinder base nuts, to eliminate clearance problems on the Shovelheads, making it possible to assemble using a box wrench for more tightening control. Our Acorns will easily clear cylinder fins on assembled motors. This special cylinder base nut kit includes the proper Special Washers.

Offering a full line of fastener assortments is important. Custom bikes need custom fasteners and that's why we make fastener assortments with the motorcycle builder in mind. Organization of your stock is important - why waste time looking for a nut or bolt. Gardner-Westcott's assortments organize styles and sizes for fast access and easy stock control. All assortments come in metal tray and are labeled inside and outside for your convenience. **You may purchase any Assortments shown below individually.**

## Machine and Sheet Metal Screws Chrome Plated

**Example:** To order a 8/32 x 5/8 Oval Phillips Machine Screw: Use **Chart #1** for the type of head style required, take those first two digits for the beginning part number which would be "40". Now look up the diameter and length from **Chart #2 or #3** for last three digits for 8/32 x 5/8 is "132". Put the two together for a part number of **40132**, or simply order by style and size.

### Chart #1: Select Styles

Style	Chrome Slotted	Phillips
Round Head	33xxx	38xxx
Flat Head	36xxx	39xxx
Truss Head	51xxx	53xxx
Oval Head	34xxx	40 / 57*
Pan Head	35xxx	41xxx

## Machine and Sheet Metal Screws Zinc Plated

**Example:** To order a **8/32 x 5/8 Oval Phillips Machine Screw**: Use **Chart #1** for the type of head style required, take those first two digits for the beginning part number which would be **"40"**. Now look up the diameter and length from **Chart #2 or #3** for last three digits for **8/32 x 5/8** is **"132"**. Put the two together for a part number of **40132**, or simply order by style and size.

**Note;** When placing your order please ask for Zinc Plated Screws.

## Clamps and Ties

### Hose Clamps in Stainless Steel

Entire clamp is Stainless Steel including the screw. This product is manufactured in Sweden with rolled up band edges and smooth inside surface of the clamp this spares the hose and insures a high and uniform tightening force. With the flexible screwdriver you can tighten and slacken the clamp from an angle of 90° without slipping.

## Nutserts

The Benefits of Using **AT SERIES NUTSERTS**®.

- **NON-GRIP** sensitive one length fits "ANY" thickness over .030
- **BLIND** installs from one side of the work.
- **WILL NOT TORQUE LOOSE** properly install and properly used at **SERIES NUTSERTS** will normally break high strength before torquing loose.

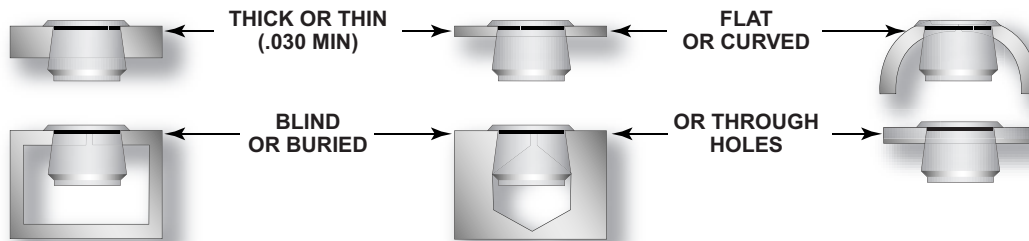

**STRONG, PERMANENT STEEL THREADS IN BLIND, BURIED & THROUGH HOLES.**

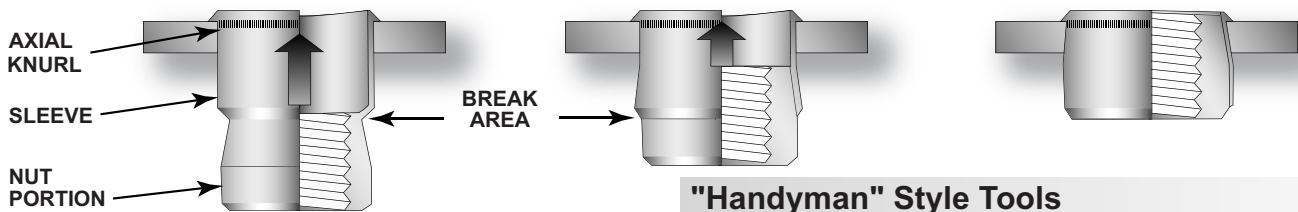

- Use in almost any material Steel, Aluminum, Fiberglass, Cast Iron, Magnesium and Plastics.
- Vibration proof.
- Nearly flush only .015 protrusion. Installation will not mar the parent material.

**Electrical and Nutserts**

## EASILY INSTALLED INTO APPLICATIONS

## HERE'S HOW THE AT SERIES NUTSERT® WORKS

**AT Series Nutserts**® are of a one piece design consisting of a nut portion and a sleeve portion. The **AT Series Nutsert**® is threaded onto the placing tool's mandrel and inserted into a drilled hole.

The rotating tool mandrel exerts a pulling action which "breaks" the nut portion from the sleeve, drawing it into the sleeve...notice the sleeve beginning to expand. The nut portion fully expands the sleeve, which exerts a full 360° swag fit against the side of the hole. You now have a permanent load bearing steel captive nut ready for trouble free use.
