

SIZE CHART - MEASUREMENT GUIDELINES

PLEASE READ FOR PROPER SIZING

The most important measurement is your chest measurement. Measure around your entire chest just below your armpits. For those of us whose stomach goes farther out than our chest, use the larger measurement. Compare that measurement to our actual jacket chest measurements on the chart below. Most people like to order a jacket that measures about 2" larger than their actual chest measurement to accommodate for a sweater or under shirt. Sleeve length is measured from the bottom of the collar, where it meets the shoulder, down the sleeve to the end of the cuff. Jacket front length is measured from the collar seam down to the bottom of the longest part of the front. Jacket back length is measured from the collar seam to the longest part of the jacket back. Call or email us with any questions regarding sizing.

JKM5001 MEASUREMENTS IN INCHES

Size	42	44	46	48	50	52	54	56
Chest	46	48	50	52	54	56	58	60
