

SIZE CHART - MEASUREMENT GUIDELINES

PLEASE READ FOR PROPER SIZING

The most important measurement is your chest measurement. Measure around your entire chest just below your armpits. For those of us whose stomach goes farther out than our chest, use the larger measurement. Compare that measurement to our actual vest chest measurements on the chart below. Vest front length is measured from the collar seam down to the bottom of the longest part of the front. Vest back length is measured from the collar seam to the longest part of the vest back. Call or email us with any questions regarding sizing.
