

**Flexpower™ Passive In-Fairing
AM-FM-WB Antenna for
1985-2013 Harley Davidson®
Motorcycles with Classic
(Bat Wing) or Road Glide Fairing**

#FPA-HCFM-P

**Installation
and
Instructions**

Product Description

J&M's new Passive FLEXPOWER® hide-a-way AM/FM/WB antenna is THE BEST hide-a-way antenna on the market today, for ALL THREE reception bands of AM, FM and WB, to help you eliminate altogether the rear mounted antenna on your Harley.

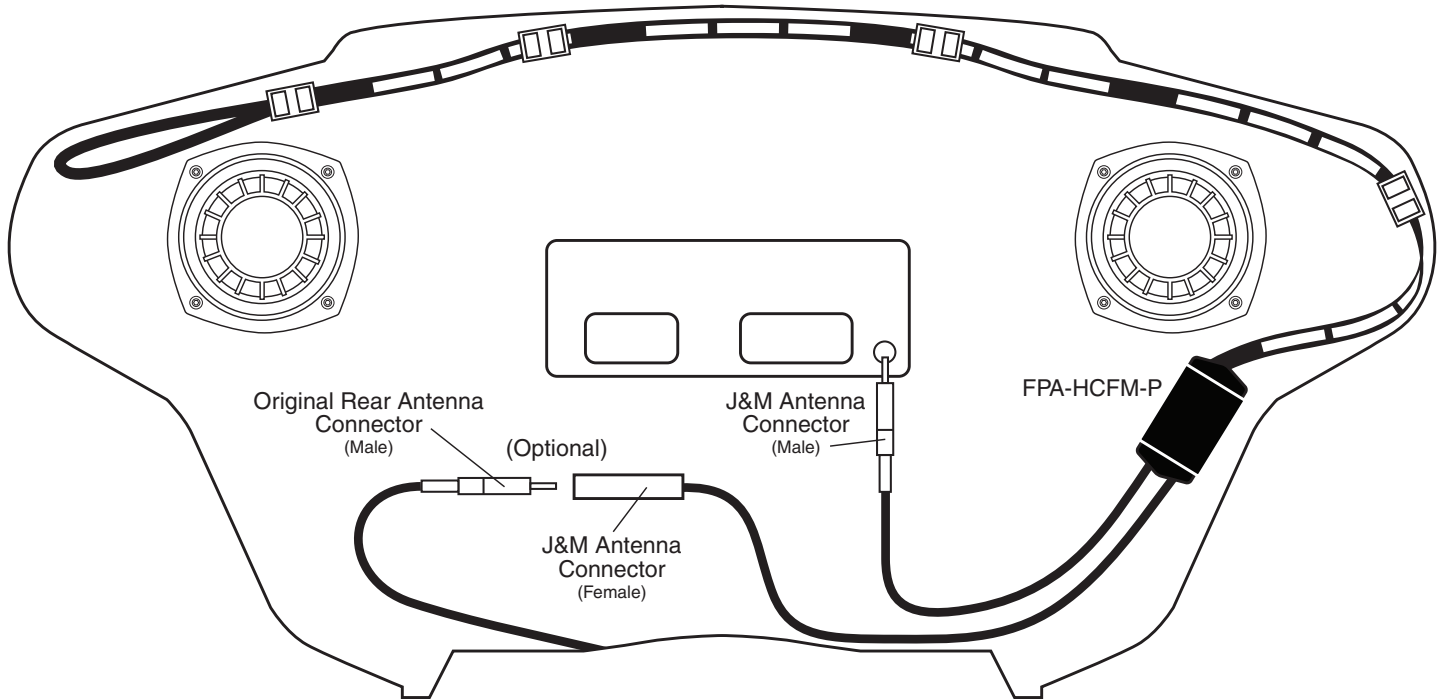

This new passive version (no 12v connection required) provides all of the great reception performance of our original design, at a much more attractive price.

Over the years we have learned that proper tuning and adequate stinger capture area is far more important to

reception quality for an in-fairing (hidden) antenna, then trying to artificially amplify a less than ideal signal.

This exciting new antenna is spec'd for the 1985-2013 versions of the Harley Classic (BatWing) or RoadGlide Fairing, with the factory Harley radio or aftermarket radio.

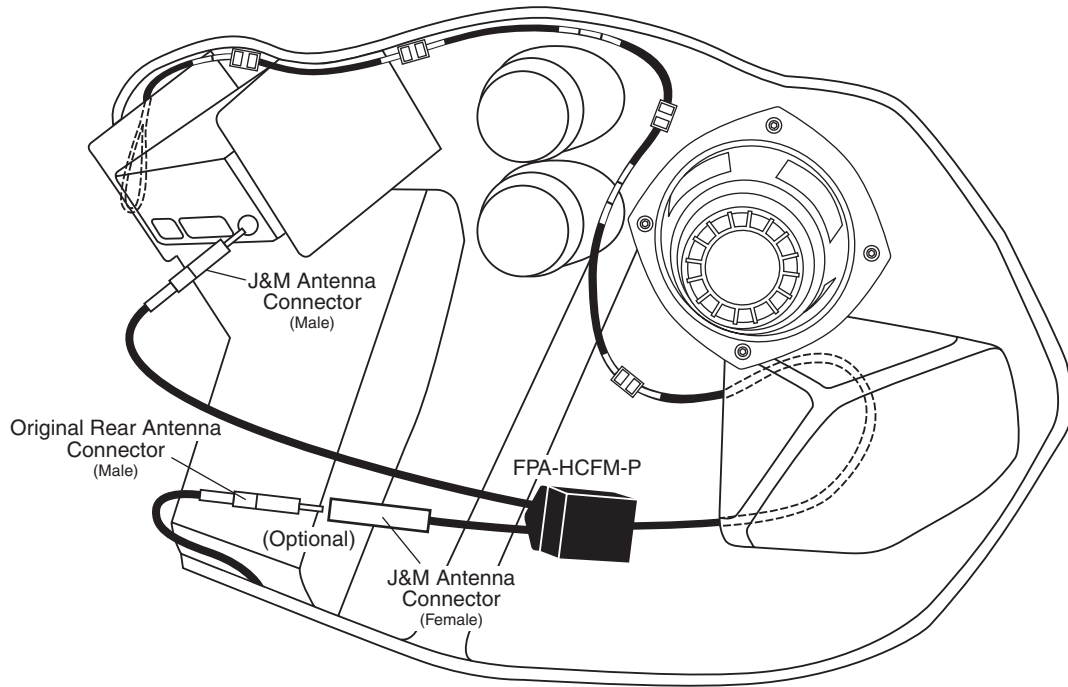

This unique in-fairing antenna is manufactured complete at our shop in Tucson Arizona USA using only high-grade copper coaxial cable & stinger wire, for maximum durability and performance.

Classic (Bat Wing) Fairing

Installation Instructions

1. Remove the windshield and outer fairing shell.
2. Unplug your stock antenna cable from the radio and plug the J&M antenna connector into the radio in its place. **Note:** If you wish to retain your original antenna rear assembly you may simply plug it into the additional female connector from the J&M FPA-HCFM-P unit. **(See Diagram)**
3. Route the antenna lead-wire upward along the left side of the inner fairing, across the top and into the upper right hand corner of the inner fairing. Secure the antenna wire using the provided adhesive clips. **(See Diagram)**
4. Turn on the ignition and test the antenna for proper connection and radio reception on all 3 bands of AM, FM and WB.
5. Replace the outer fairing shell and windshield.

Road Glide Fairing

Thank you for the confidence you have shown in J&M Corporation by purchasing one of our innovative products.
