

Jagg oil filter adapter gaskets

Background:

Jagg has manufactured the 4600/4700 offset oil filter adapter for over 15 years. There were a few revisions to these adapters early-on that required changes to the gaskets used with them. This document aims to help identify which gasket you have.

The gasket currently included with Jagg offset oil filter adapters and included in the Jagg part # GK4600 gasket service kit is the best-sealing gasket to date. Not only does it seal better than ever, but we also designed it to retrofit adapters going all the way back to 2003-year models of the 4600 and 4700 adapter.

Part # GSK-OP-034060-AFM

This gasket has been discontinued.

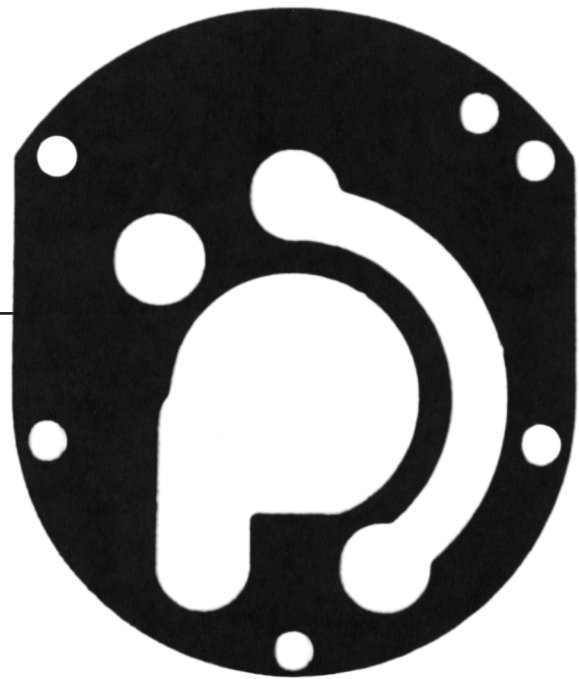

Part # GSK-OP-050060-AFM

This gasket has been discontinued.

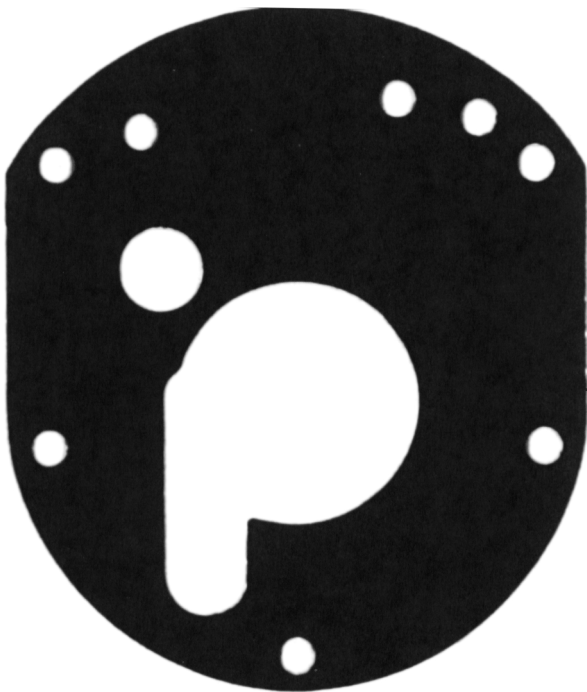

Part # GSK-OP-070060-AFM

This gasket has been replaced by the new gasket currently included in part # GK4600 gasket service kit.

Part # GSK-OP-077060-AFM

This gasket has been replaced by the new gasket currently included in part # GK4600 gasket service kit.

Part # GSK-OP-288060-AFM

This gasket has been replaced by the new gasket currently included in part # GK4600 gasket service kit.
