Jardine Forward Controls for Metric Cruisers move pegs approximately 2" - 4" forward. They're made from Billet Aluminum components which are specifically engineered with reliable, long lasting hardware and are simple to install. Attention to detail is reflected in these hand polished and deep chrome plated accessories. Our Forward Controls offer a relaxed riding position and great custom looks.

The GP-1 is a Stainless Steel Slip-On that gives your streetbike a boost in the style and sound departments. Getting rid of that bulky stock exhaust and cleaning up the lines of your sport bike with Moto GP styling dramatically improves the looks of your machine, all the while shaving off some unnecessary weight compared to stock. The best part is installation is a breeze with these easy-to-install pipes.

Jardine has a history in producing performance exhaust systems for factory racing teams. This pedigree is obvious in the RT-5 - giving you a traditional look, plus great performance and durability that is truly race inspired. Even if you are looking for a quieter and more economical muffler, you can still stay at the front of the pack with Jardine RT-5 exhaust systems. Lightweight Cool Wedge Design. Saves at least 2 lbs. over stock. Increase in horsepower. Simple and quick installation. Available in Carbon, Titanium and Polished Aluminum bodies.
