

No. 1130-IS

INSTRUCTION SHEET FOR TOOL # 1130

V-ROD CLUTCH ALIGNMENT TOOL

Use on V-Rod 2002-Present

JIMS® Clutch Hub Alignment Tool, Part No.1130 is necessary to maintain the alignment of the clutch plates during assembly of the clutch components.

FIG. 1

1. Place the alignment tool into the backside of the clutch shell (see Figure 1)
2. Put clutch shell with alignment tool installed onto a flat surface
3. Using the procedure in the H-D® service manual, install the clutch plates (Figure 2).
4. Clutch plate tabs must be aligned with the slots in the clutch shell, then install the hub-plate assembly into the clutch shell
5. Remove the alignment tool and install the clutch assembly using the procedure in the H-D® service manual.

FIG. 2

CAUTION: WEAR SAFETY GLASSES. EXCESSIVE FORCE MAY DAMAGE PARTS!

When it comes to quality motorcycle tools, JIMS is the brand you can depend on.
