

KMC10 Media Center

The **KMC10** delivers the same high-quality LCD as the KMC20, including the customizable Day/Night illumination settings.

In addition to delivering over 200 watts of peak power, the KMC10 also features two sets of RCA outputs for adding external amplifiers, as well as providing connections for multiple waterproof remote controls.

KMC2 Media Center

The **KMC2** is a simple, effective solution when you want great tunes in a compact footprint.

Equipped with an easily readable screen, over 200 watts of peak power and several audio inputs (including USB and Bluetooth), this durable Media Center is ready for some fun in the sun!

KRC15 Remote

The **KRC15** puts you in the driver's seat from anywhere you want to mount it.

Whether you're topside or in the cabin of your boat, or even in back of your UTV this flexible remote lets you instantly change the source, volume, track and favorites from a bright two-line LCD display.

Simply use the **KRCEXT25*** Extension Cable to connect directly to your **KMC10** or **KMC20** Media Center. Connect multiple KRC15's with a **KRCY1 Y-Adapter** and **KRCEXT25 Extension Cable** for each remote.

*KRCEXT25 not Included

KRCEXT25 Extension Cable

Adding an additional **KRC15** Remote Commander to your sound system?

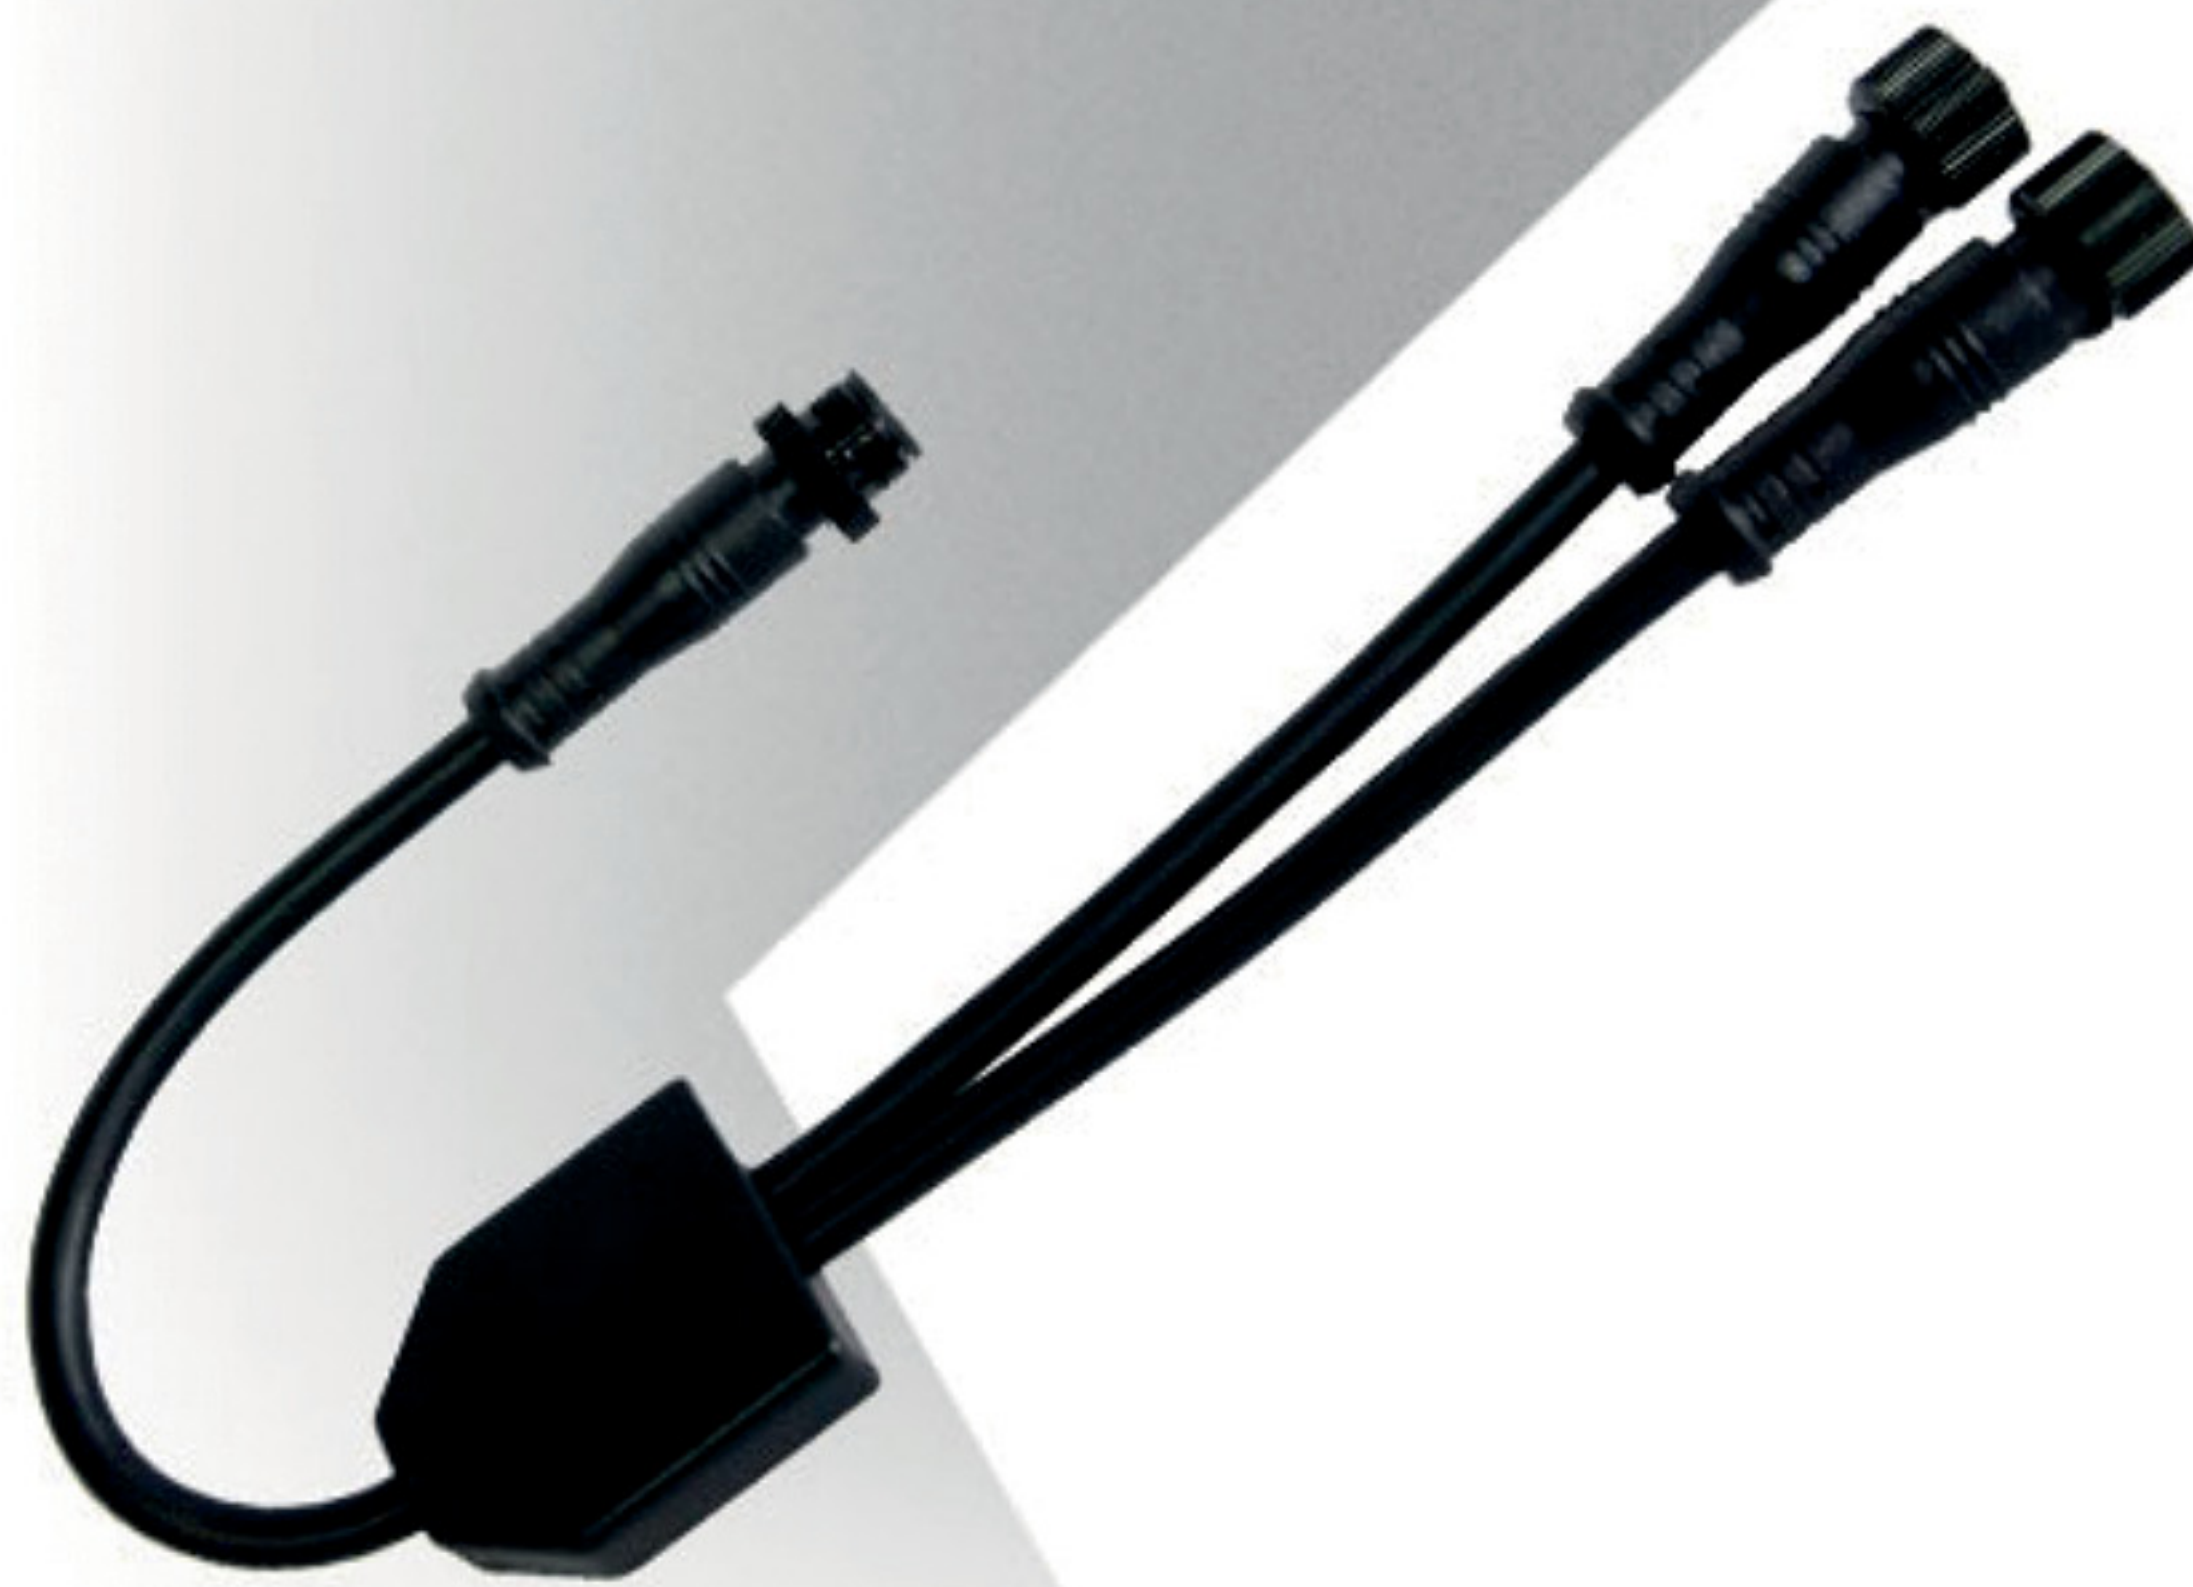

Add this extension and a **KRCY1 Y-Cable** for a complete solution.

Requires a **KMC20** or **KMC10** Media Center.

KRCY1 Splitter Cable

Use this secure Y-Cable in conjunction with the **KRCEXT25** to easily add multiple **KRC15** remotes to your boat.

Requires a **KMC20** or **KMC10** Media Center.

KMCEXT25 Extension Cable

Sometimes a custom receiver requires a custom install! Use the **KMCEXT25** between the **KMC20** processor and display when six feet of cable isn't enough.
