

## Chain Lube

Klotz hi-performance Chain Lube contains EXTRATAC™ Anti-Wear system for all street, Off-road, and racing applications. Specially formulated for conventional and “O” ring type roller chains to provide the maximum level of lubrication and rust protection for all types of competition. Penetrates deep to displace moisture and dirt. Klotz Chain Lube will challenge and outrun the competition in the following ways:

- **EXTRATAC™ penetrates deeply and dries tacky**
- **Waterproof formula prevents rust and wash off**
- **Approved for conventional and “O” ring chains**
- **Extends chain and sprocket life**
- **Loosens stiff chain links**
- **Environmentally safe formula**

### CHARACTERISTICS

Film Strength	10	1 = failure - 10 = no wear
Flash Point	380°F	
Product Color	Green	
Chemical	100% Pure Synthetic	
Biodegradable	60%	

### CERTIFICATIONS

None

### DIRECTIONS

For best results, preheat chain with a 5 minute ride. Wash or clean chain and sprocket surfaces before applying Chain Lube. Shake can well. Rotate wheel and apply a liberal bead along inside surface of chain. Allow Chain Lube to penetrate rollers and dry for 10 minutes, then wipe off excess lube.

### COMPATIBILITY

Will blend with petroleum oils and some synthetic lubricants.

### PART NUMBERS

KL-605 10 - 15.5 oz. AEROSOL CASE

Drums available upon request

### RECOMMENDED APPLICATIONS

Motorcycle

ATV

Kart

Micro Sprint
