

INSTALLATION INSTRUCTIONS

Part Number DU-1006

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Filtercharger® seals properly.

INSTALLATION

1. Remove the stock [air filter](#).
2. Install the K&N Air Filter with the raised seal bump facing up. (Fig. 1)
CAUTION: If the filter is installed with the flat side up it will not seal correctly.
3. Push the K&N Air Filter into the air box until it is flush with the surface of the air box. (Fig. 2)
4. Reinstall the air box lid.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
