

INSTALLATION INSTRUCTIONS

Part Number: HA-0513

Congratulations, you have purchased the finest [air filter](#) that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modification required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® air filter seals properly.

INSTALLATION:

1. Remove stock air filter per owner's manual.
2. In the OE air box lid, remove the air cleaner duct. Fig.1 & Fig.2
3. Install K&N® Air Filter in the air box base.
4. Place air box lid back on air box base and fasten tight.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
