

INSTALLATION INSTRUCTIONS

PART NUMBER: HA-1330

Congratulations, you have just purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® air filter seals properly.

INSTALLATION:

1. Remove the stock [air filter](#).
2. Install the K&N® air filter making sure it is centered in between the two cover mounting posts. (Fig. 1)
3. Reinstall the air box cover.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
