

INSTALLATION INSTRUCTIONS

Part Number HD-1499 and HD-1508

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® air filter seals properly.

INSTALLATION:

1. Remove the stock [air filter](#) and stock gasket.
2. Install the stock air filter bracket and screws onto the K&N® air filter.
3. Install the provided gasket onto the K&N® air filter.
4. Reinstall the stock breather hoses in the top two holes of the K&N® air filter.
5. Install the K&N® air filter into the air box.
6. Tighten the stock screws.
7. Reinstall the stock air cleaner cover.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
