

INSTALLATION INSTRUCTIONS

Part Number KA-6003

Congratulations, you have purchased the finest [air filter](#) that money can buy. With proper care, this filter can last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modifications will be required. However the following procedure **MUST** be followed to ensure a proper fit and seal of the K&N Air Filter.

INSTALLATION:

1. Remove the stock air filter.
2. Remove the o-ring from the air filter sealing groove.
NOTE: Do not remove the air box base/lid o-ring.
3. Reinstall the air box lid and tighten the screws.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
