

# INSTALLATION INSTRUCTIONS

Part Number SU-1348

Congratulations, you have purchased the finest [air filter](#) that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Air Filter seals properly.

## INSTALLATION:

1. Remove the stock air filter.
2. Install the K&N Air Filter into the stock air box base making sure it is completely seated. (Fig. 1)

**NOTE: Air filter will only fit in the air box one way. DO NOT REMOVE THE O-Rings From The AIR BOX BASE AND THE LID.**

3. Re-install the air box lid.
4. Re-install the stock screws into the air box lid and tighten.

**NOTE: Make sure to install the center screw on the air box lid (Fig. 2) Doing this will hold the air filter in place.**

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
