

INSTALLATION INSTRUCTIONS

PART NUMBER: YA-7585

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modification will be required. However the following procedures MUST be followed to ensure the proper fit and seal of the K&N® air filter.

INSTALLATION:

1. Remove the old air filter.
2. Carefully clean the inside of the air box and sealing surfaces.
3. Clean the shown surfaces on the new filter and install the supplied gaskets (Fig 1). The gaskets have an adhesive on one side; remove the tape and adhere the gaskets to the filter. (Figs. 2 & 3)
4. Install the K&N® Air Filter.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
