

INSTALLATION INSTRUCTIONS

Part Number YA-4510DK

This filter fits: YA-4510

The K&N® Drycharger® is a specially designed filter wrap made to extend the service interval of your K&N® [Air Filter](#) when used in very dirty, muddy or dusty conditions. They are made from a highly durable silicone treated polyester material containing uniform micron openings. The Drycharger® will stop small dirt particles with minimal restriction to the airflow of the filter. The Drycharger® is designed to be run dry and can be cleaned with K&N® Filter Cleaner or soap and water. The Drycharger® is custom made to fit each application.

INSTALLATION:

1. Place Drycharger® in the OE cage supplied with your vehicle. Fig. 1
2. At the top of the cage, fold flap of Drycharger® over cage and secure Drycharger® using the prongs on the cage and holes in Drycharger®. Fig. 2 & 3
3. At the bottom of the cage, secure Drycharger® in the same manner as the top from step 2. Fig. 4
4. Flip cage and Dry Charger over and install onto the air filter. Fig. 5 **Note: You may need to pull on tabs of drycharger ensuring the cage sits on top of Drycharger®.** Fig. 6
5. With cage and Drycharger® sitting correctly onto the air filter and air box, re-install rod to secure onto the air box. Fig. 7
