NOTICE

These installation instructions contain important information. Ensure that the end user receives this copy and is aware of its importance for future reference.

- STEP 1** Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface and turn **IGN OFF**.
- STEP 2** Remove the three existing screws securing the windshield to the motorcycle; set them aside, they will not be reused.
- STEP 3** Using warm, soapy water, remove all grease, oil, bugs, dirt, and other debris (including wax and polish) from the installation area. Allow the area to dry completely.
- STEP 4** Rub the adhesive backing with your fingernail to activate the adhesive; remove and discard the backing.
- STEP 5** Align the Trim with the holes in the fairing; secure the Trim to the fairing with the three (3) included Screws and Flat Washers; the long Screw goes in the middle hole.

NOTICE

Avoid damage to the motorcycle. Protect painted surfaces with a soft cloth or blanket.

It is the end user's responsibility to ensure that all of the fasteners (including pre-assembled) are tightened before operation of the motorcycle. Kuryakyn will not provide warranty coverage on products or components lost or damaged due to improper installation or lack of maintenance. Periodic inspection and maintenance are required on all fasteners.
