Thank You For Choosing Küryakyn!

Protect yourself and others from potential injury and property damage or loss. Pay close attention to all instructions, warnings, cautions, and notices regarding the installation, use, and care of this product.

NOTICE   This indication alerts you to the fact that ignoring the contents described herein may negatively affect product performance and functionality or damage the product itself or the product to which it is being attached.

ENSURE THAT THE FOLLOWING PARTS HAVE BEEN INCLUDED IN THE KIT:

1	Starter End Cover
1	Hardware Kit containing:
	1 #10-32 X 3/4" Socket Head Cap Screw
	1 #10-32 Clip-On Nut

YOU WILL ALSO NEED:
Set of hex wrenches

NOTICE   These installation instructions contain important information. Ensure that the end user receives this copy and is aware of its importance for future use.

STEP 1   Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface and turn **IGN OFF**. Allow the engine and exhaust system to cool.

STEP 2   Refer to PIC 1. Slide the included Clip-On Nut onto the Cover mounting bracket; ensure that the nut is installed with the threaded portion as shown.

STEP 3   Refer to PIC 2. Slide the cover over the engine mount; ensure that the Cover mounting bracket captures the engine mount.

STEP 4   Refer to PIC 3. Insert the included Screw through the hole and begin threading it into the Clip-On Nut; do not over tighten!
