Set of Torx Drivers

#### **NOTICE**

These installation instructions contain important information. Ensure that the end user receives this copy and is aware of its importance for future use.

- STEP 1 Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface and turn **IGN OFF**.

#### **NOTICE**

Avoid damage to the motorcycle. Protect painted surfaces with a soft cloth or blanket.

- STEP 2 Open the left saddlebag lid. Remove the two screws securing the lid tether as shown in PIC 1. Keep the screws, they will be reused. Keep hold of the lid once the tether has been released.
- STEP 3 Remove the three (3) screws securing the existing hinge cover; set the cover aside, it will not be reused. Keep the screws, they will be reused.
- STEP 4 Align the Left Saddlebag Hinge Cover with the three holes in the hinge. Secure the Cover with the three (3) screws from the previous STEP.
- STEP 5 Reattach the lid tether; close the lid.
- STEP 6 Repeat STEPS 2 –5 for the right side.
