STEP 1 Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface and turn off the ignition.

STEP 2 Refer to PIC 1, 2 and 3. Unlatch and open Tour-Pak. From the top half of the Tour-Pak remove four (4) existing screws from Tour-Pak Latch. Remove the latch. Set hardware aside until Step 3, where it will be reused.

STEP 3 Refer to PIC 4 and 5. Locate Tour-Pak Lid Grip. Align it with the four screw holes on the Tour-Pak. Attach lid grip to Tour-Pak using the screws that were removed in Step 2. Tighten all hardware.

Note: Gently pull back and down on the Tour-Pak gasket while installing the hardware. This will help prevent the gasket from getting pinched between the hardware and the Tour-Pak.
