Certification & Quality

CE TYPE APPROVAL CERTIFICATE

n. **525163904/OE**

2016/09/29

This is to certify, that the hereunder described items of Personal Protective Equipment have overcome positively the "CE type examination", proving their conformity to the safety and health requirements of the Directive 89/686/EEC.

Manufacturer:
(Responsible of the
PPE) **LEATT CORPORATION**

Type of PPE: **Neck protector for use by motorcyclists** in conformity with the requirements of the European Directive 89/686/EEC concerning P.P.E.

Category of PPE: **II: Personal Protective Equipment against "medium" risks.**
This certificate is based on the reference standards listed below: **its validity** is no longer ensured should new version of the standards come into force.

Model **"Leatt-Brace – GPX 5.5 / FIVE FIVE"**
"GPX 5.5 Series" – Codes: 1017010 XXX (*)
this CE-Type Approval is valid for all the codes = variants in colors/sizes as listed in Manufacturer's Technical File nr.66/2016 and in RCT Test Report.

Description:

LIME:

(*) This protector is available in **4 NEW COLORS** (see pictures) – (for previous collection see RCT CE-Certifications and LEATT T.F. 13 – year **2013**) and **2 ADULT sizes = S/M + L/XL**
FUEL color variant:

construction: two semicircular pieces of fuel color declared "GF NYLON 15%" marked "LEATT DBX" of white color; **quick-release system** in the event of accidents by means of a red metal screw on the left side declared "Aluminium 6061 T6"; on the right side instead, quick-release system in the event of accidents by means of a red button placed under the neck brace, marking "OPEN" placed on the frame;

padding: declared composition: black EVA foam;

front (in contact with the chest): declared composition: white "GF NYLON 15%" marked "FIVE-FIVE" in red, matched with declared black EVA foam;

The front part of the neck brace can be adjusted by means of a red lever marked "LIFT HERE";

back side (in contact with the back): declared composition: white "GF NYLON 15%", marked "FIVE-FIVE" in red, matched with declared black EVA foam.

The back part of the neck brace can be adjusted by means of a red lever marked "LIFT HERE". FOR THE DETAILED DESCRIPTION of the MATERIALS see the FOLLOWING TABLE:

Main chassis components	Thoracic Lower/upper	Foam padding	Attachments + Fastenings, circlips and spacers	Facing Fabrics	Rivets Washers
Glass-reinforced Nylon	Glass-reinforced Nylon	EVA PEX	Nylon Velcro +Stainless steel / Anodised aluminium / Aluminium 7075	Nylon Lycra & mesh	Galvanised Mild Steel S/S 316 HDPE

Technical Standard: **me-int 088 rev.10** Based on partial application of: EN 13688:2013 + EN 1621-2:2014 (incorporating also met. 074-00) (neck-brace).

Intended use: Motorcycling: preventive use for on- and off-road MOTORBIKE activities . To offer the best possible protection, this neck-brace must always be properly fitted and tightened, and implemented by suitable additional motorcycling equipments (in particular, only in conjunction with a compatible full-face helmet).

Size range:	This collar is available in TWO sizes: Small/Medium + Large/Extra-Large according to the individual height + "standard" chest girth – besides, 3 "configurations" are possible according to the chest type (FLAT/STANDARD/BARREL (for more detailed explanation on the correct size to be chosen/ size-chart, see the Users' Manual = Information Notice and hang-tag).
Technical File:	DC-8011/E (including Application to RCT and Technical Documents).
Test report:	RCT n°352908/E.
Basis of evaluation:	Applicable requirements of the European Directive 89/686 (a revised edition of the present Certification might be required in case a new Harmonized Standard is issued to cover the specific purposes of this special kind of P.P.E.).
Functions and performance levels:	To reduce the severity of traumas caused by impacts, the protectors provide limited protection against mechanical impact, including cervical compression and flexion injuries, in case of falls: <u>Method:</u> "Kerbstone" impact testing at 50J with ref. to EN 1621-2 requirements (analogous method) - <u>Obtained values of transmitted force (MAX – requirement: ≤ 18):</u> Right side: 8.2 kN Left side: 9.5 kN <u>All other test (among which: impact resistance of the quick release system, resistance to impact at 70°C/4 h, tensile strength, resistance to lateral displacement, ergonomics, information sheet: PASS.</u> NOTE: The protective functions also depend on the correct positioning/adjusting of the protector (in particular on a correct connection with the other protective devices, such as chest/back protectors and helmet) which is not part of this assessment.

Marking:

printed on different labels (declared not removable) stitched to the textile parts of the protector (other infos like the size-range are on a hang-tag, or directly onto the P.P.E. with a Graphic/Tampo print) - it includes the following information:

- **CE Marking** indicating the conformity of the PPE to the provisions of the Directive 89/686/CEE (and later amendments);
- Trademark of the Manufacturer;
- The Model (identification name + codes) of the Brace is on the Brace itself as a Graphic/Tampo print;
- Year of Manufacturing will be on the serial number sticker that will go onto the brace parts; other contents of the serial nr. shown here-under;
- Cleaning instructions are in the information notice.
