

WHY CHOOSE LYNDALL

PREMIUM STEEL

We use only high carbon steel. It's very ductile and st high thermal loads.

BUILT TO LAST

100% CNC machined in the USA. Never stamped or This means the materials are not stressed and maintai strength.

LUG DRIVE

Our lug drive system is the most stable design in a flo ensures a lifetime of quiet and safe operation.

GAS SLOTS

During hard braking events, our generous gas slots ar at clearing the gases that all brake pads produce unde Quicker and better outgassing means the pads get a b rotor.

CROWN CUT PERFORMS

The Crown Cut style may turn heads, but it's built for performance, not just looks. The increase in surface a for much faster cooling.
