Precautions for Safe

Handling:

Avoid contact with eyes, skin and clothing. Avoid breathing vapors and mists. Wash thoroughly after handling. Remove oil-soaked clothing and launder

before re-use.

Conditions for Safe

Storage

Store in a cool area away from oxidizing agents. Protect containers from

physical damage.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits Castor Oil None Established

Modified Fatty Acid Ester None Established Multifunctional Additive Mixture None Established

Appropriate Good general

Good general room ventilation (equivalent to outdoors) should be adequate

Engineering Controls under normal conditions. If exposures are excessive, increased mechanical

ventilation such as local exhaust may be required.

Personal Protection

Respiratory Protection:

None needed under normal use conditions with adequate ventilation. If exposure limits are exceeded, use a NIOSH approved respirator with organic

vapor cartridges and particulate pre-filter. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene

practice.

Eye Protection: Safety glasses or goggles recommended if splashing is possible.

Skin/Body Protection: If there is a potential for skin contact, wear a long sleeved shirt and apron.

Neoprene or nitrile rubber boots when necessary to avoid contaminating

shoes.

Hand Protection: Use nitrile or Viton gloves recommended to prevent skin contact.
