5. FIRE FIGHTING MEASURES

Suitable Extinguishing

Media

Use water fog, foam, dry chemical or carbon dioxide (CO2) to extinguish

Specific Hazards

Arising From The

Chemical

This material will burn although it is not easily ignited. Combustion will

produce carbon oxide and unidentified organic compounds.

Special Protective

Equipment And

Precautions For Fire-

Fighters

Firefighters should wear full emergency equipment and a NIOSH approved positive pressure self-contained breathing apparatus. Cool exposed intact

containers with water

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions Wear appropriate protective equipment. Wash thoroughly after handling. See

also: "Personal Protection "section 8.

Avoid release into the environment. Report spill as required by local and **Environmental Hazards**

federal regulations.

Methods/Materials for

Cleaning up

Dike spill and collect with an inert absorbent. Place into closable containers for

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Limits Synthetic Base Oils 5 mg/m3 TWA Manufacturer

Multifunctional Additive Mixture None Established Zinc alkyldithiophosphate None Established Organosulfur-Phosphorus None Established

Compound

Appropriate Engineering Controls Good general room ventilation (equivalent to outdoors) should be adequate under normal conditions.. If the recommended exposure limit is exceeded increased mechanical ventilation such as local exhaust may be required.

Personal Protection

Respiratory None needed under normal use conditions with adequate ventilation. If **Protection:** exposure limits are exceeded, use a NIOSH approved respirator with organic

vapor cartridges and particulate pre-filter. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene

practice.

Eye Protection: Safety glasses or goggles recommended if splashing is possible.

Skin/Body Protection: No special protective clothing is normally required. If there is a potential

for prolonged skin contact, wear a long sleeved shirt and apron. Neoprene or nitrile rubber boots when necessary to avoid contaminating shoes.

Hand Protection: Use nitrile or neoprene gloves for prolonged or repeated skin contact. .
